# STEPPING STONE SYMPOSIUM

## on Theoretical and Numerical Analysis of Partial Differential Equations with Specific Applications

*Université de Genève*

Uni Bastions

Lecture hall B106 (first floor)

Rue De-Candolle 5, 1205 Genève, Switzerland

[pde17.unige.ch](http://pde17.unige.ch)

### PRESENTATION:

This Stepping Stone Symposium will bring together experts in theoretical and numerical analysis of partial differential equations from a wide range of institutes from China, Europe, and Switzerland, with the goal of exchanging ideas, consolidate present knowledge, and, most importantly, foster new collaborations between the participating universities.

This Stepping Stone Symposium is mainly funded by the Sino Swiss Science and Technology Cooperation (SSSTC) Programme 2013-2016.

It is organized jointly by the University of Geneva (Section of Mathematics and Section of Physics) and the School of Information, Renmin University of China.

### CONFIRMED SPEAKERS INCLUDE:

Assyr Abdulle (Lausanne), Annalisa Buffa (Lausanne), Xinru Cao (Beijing), Martin J. Gander (Geneva) Julien Guillod (Paris), Zhengguang Guo (Wenzhou), Matthieu Hillairet (Montpellier), Jialin Hong (Beijing), Yuanyuan Ke (Beijing), Rolf Krause (Lugano), Daniel Kressner (Lausanne), Felix Kwok (Hong-Kong), Yuan Lou (Beijing), Fabio Nobile (Lausanne), Yaobin Ou (Beijing), Qiujin Peng (Beijing), Marco Picasso (Lausanne), Sylvain Sardy (Geneva), Hongpeng Sun (Beijing), Guido Schneider (Stuttgart), Zuoqiang Shi (Beijing), Izumi Takagi (Beijing), Bart Vandereycken (Geneva), Gilles Vilmart (Geneva), Thomas Wihler (Bern), Peter Wittwer (Geneva) Shu-Lin Wu (Zigong), Tian Xiang (Beijing), Xueshuang Xiang (Beijing), Yingxiang Xu (Changchun), Hui Zhang (Zhoushan), Yong Zhou (Shanghai).
