Invitation à une conférence de :
Prof. Scott J. MILLER
Dept of Chemistry,
Boston College, Boston, USA

http://chemserv.bc.edu/Department/Faculty/miller/miller.html

Natural and Unnatural Amino Acids in Asymmetric Catalysis

Date: Vendredi, 11 mars 2005, à 16h30
Adresse: Sciences II
30, quai Ernest Ansermet
Auditoire A-100

Publications récentes:

"A peptide-catalyzed asymmetric Stetter reaction"
Chemical Communications (Cambridge, United Kingdom), 2005, 195-197

"Structure-Selectivity Relationships and Structure for a Peptide-Based
Enantioselective Acylation Catalyst"
Journal of the American Chemical Society, 2004, 126, 6967-6971

"DNA as a template for reaction discovery"
Nature Biotechnology, 2004, 22, 1378-1379

"Approach to asymmetric synthesis based on "biomimetic catalysis"
Abstracts of Papers, 228th ACS National Meeting, Philadelphia, PA, United States,
August 22-26, 2004, ORGN-278

"Synthesis of aziridinomitosenes through base-catalyzed conjugate addition"
Tetrahedron, 2004, 60, 7367-7374

Les conférences sont publiques
