R&D, Marketing and Strategy Consultant  
Life sciences (Biotechnologies / Food science / Healthcare)

COMPANY DETAILS
Alcimed is an independent European business consulting company specialized in life sciences, chemistry and energy. The scope of our advisory business encompasses marketing, strategy, and R&D at the interface between science and business. We are a team of 180 employees based in Cologne, Lausanne, Lyon, Paris, Princeton and Toulouse.

Our office in Lausanne was created in October 2006. With a team of 15 people today, it is developing very fast in the Life Science area. Today we would like to recruit more R&D, Marketing and Strategy Consultants.

JOB DESCRIPTION
- You will be in charge of the end-to-end completion of projects, from information-gathering to the drafting of recommendations.
- You will learn about our industries' latest issues and communicate with worldwide key opinion leaders (to gather and challenge their point of view).
- Working directly with our customers, mostly R&D or marketing directors at major groups in Life sciences, your mission will be to create and maintain privileged professional relationships.
- You will be trained in our methodologies and benefit from Alcimed's cumulated experience.

Career development: become a Project manager in order to manage your own team of consultants.

DESIRED QUALIFICATIONS
- A graduate or a postgraduate degree: Master of science or a PhD in a scientific field (agrifood, biology, chemistry…) or a Master of science in management / business
- You speak fluent English and have at least a basic knowledge in French.

PROFILE
- Passion about science, marketing and innovation
- Strong interest in the life sciences and in working at the interface between science and business.
- Work experience 0-3 years
- International experiences will be appreciated

REQUIRED QUALITIES
Curiosity - ambition –good interpersonal skills – attention to detail – motivated to join a fast-growing company

Several open permanent positions based in Lausanne.
We also offer 6-month Master internships.

Start date: open
