

## ***OPEN POSITION***

(50-70% assistant position for 9 months)

***Student with experience in Web Design is required to assist with the organization of the Centre d'Etude des Risques Géologiques, Section des Sciences de la Terre, Université de Genève.***

Enthusiastic student is required for a part-time position between 1 November 2006 and 31 July 2007 to assist with the organization of the Centre d'Etude des Risques Géologiques (post graduate certificate at the Université de Genève, Section des Sciences de la Terre). Applicants should be familiar with Web Design and Windows and Linux operating systems. In fact, as part of this job they will be asked to create an efficient and creative Web Page for the course and an Online Forum (40%). They will also be asked to assist with course presentations (Power Point, Video, etc...) and with the computer technology provided (30%). Some secretarial work will be also part of this job, such as preparing hand outs for the students, helping the main secretary in various tasks and assisting lecturers and students during field work and normal course hours (30%; training program is between 16 April and 14 June 2007). Good knowledge of English and French is required (English is the official language of the CERG training program).

Further information on the course can be found on the website:  
<http://www.unige.ch/hazards/>. If interested, please email Prof. Costanza Bonadonna, Centre d'Etude des Risques Géologiques (CERG), Section des Sciences de la Terre, Université de Genève at [Costanza.Bonadonna@terre.unige.ch](mailto:Costanza.Bonadonna@terre.unige.ch)

**Deadline is 8 November 2006.**
