Dr Adolphe Ferrière,
Chemin Peschier 10,
Champel.
Geneva.

Dear Dr Ferrière,

I have had a letter from Dr Lucy Wilson in which she says she could not get into touch with Senor Hamel. It will be an important thing for you to find out while you are in America whether Senor Hamel is still running his magazine and if he still considers it affiliated with our Fellowship. I some times feel that we are publishing these South American names but that there is no reality behind them. I have not heard from Rezzano for years. It is splendid that you are going out and can put these matters clear. *(cf. sa. van!)*

I have also had another letter from Mrs Ensor begging me to be quite sure that you do many things for us while you are in South America, and in case I have missed any of them I will make another list of the things she mentioned.

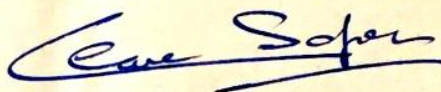

1. News of our friends out there.
2. Material for New Era
3. Try to get definite sections formed. Argentine has a section. Can you get the members of the section and enthuse them?
4. Send us names to circularise. We have a French letter prepared giving particulars of Federating membership. These could be sent to all associations which may wish to be linked up with us. I think this Federation will be quite valuable. It will, of course, be slow in building. One of our Federating Associations is the Association of Assistant Mistresses in Secondary schools - a very important one.

(Freeman)

I enclose copy of the Federating French letter for your information. (*Is the French very bad?*)

5. Do a great deal of propaganda for the Conference in 1932. We should have a big delegation from S. America.
6. Get representatives for our Commissions. I am enclosing a list of names on our S. American file. Some of them may be rather old but it would be worth letting these individuals know you are in South America.

Yours sincerely,

CLARE SOPER.
