

# ARCHIVE OUVERTE UNIGE

The digital repository of the University's scientific patrimony

<https://archive-ouverte.unige.ch>

## WHAT ?

It allows to **preserve** and **give** the largest possible **access** to the fulltext of scientific **publications** :

- ✓ of any type (articles, chapters, books, theses, etc.)
- ✓ in various versions (with or without final layout)
- ✓ with different access level (public, restricted, closed) and embargos enabling to respect the publishers' rights.

## WHO ?

**UNIGE authors** are obliged to submit their publications in Archive ouverte.  
The **validation officers** check the submissions before they are visible online.

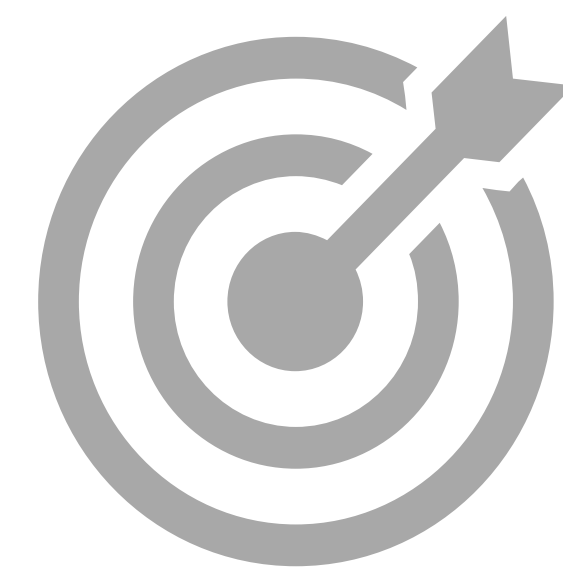

## WHAT ADVANTAGES ?

### For you

- Easily access all your publications and know that they will be preserved and accessible in the long term
- Automatically generate your lists of publications, in the format of your choice, on your web pages
- Increase the visibility of your work
- Make your work freely accessible, and thus meet your funders' Open Access obligations

### For the institution

- Bringing together the scientific and intellectual production of the University
- Promote current research
- Preserving institutional heritage
- Participate in the Open Access movement
