The WTO in the age of Artificial Intelligence: Study on the applicability of the Technical Barriers to Trade Agreement and the General Agreement on Trade in Services to measures regulating AI products and services

MERCREDI 11 JUIN 2025

13H15 - SALLE 3050 - UNI MAIL

The thesis applies treaty interpretation tools and relevant WTO case law to develop a framework for determining when domestic AI regulations fall under the scope of the TBT Agreement and/or the GATS. It also identifies important gaps in both agreements and offers recommendations to enhance their clarity and regulatory coverage.
