

INTERNATIONAL WATER LAW

Edited by **Laurence Boisson de Chazournes** and **Mara Tignino**,
University of Geneva, Switzerland

This collection brings together writings from leading water law experts around the world to assess the law applicable to the uses, management and protection of water resources. Exploring the diverse aspects of this, from human rights to international economic law and peace and security, *International Water Law* comprehensively covers the multi-level facets of water resource management and protection in its wider scope.

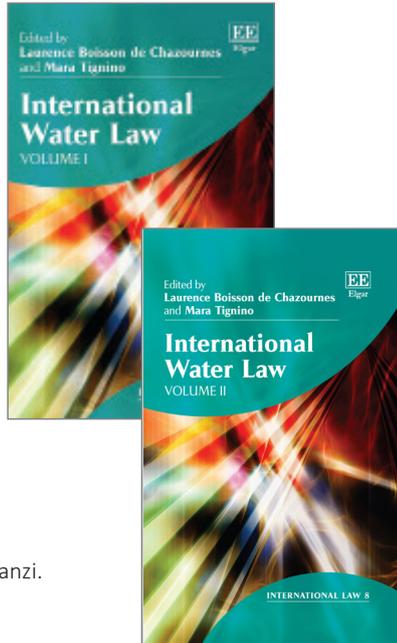

A must for all international water law academics, researchers and practitioners, this title includes all the seminal articles in the area and an original introduction by the editors to provide an invaluable and essential research tool.

39 articles, dating from 1972 to 2014

Contributors include: E. Brown Weiss, C. de Albuquerque, L. Caflisch, S.C. McCaffrey, O. McIntyre, S.M.A. Salman, D. Shelton, F. Sindico, A. Tanzi.

ELGAR RESEARCH COLLECTIONS

Edited by distinguished authorities in their field, our Research Collections bring together the seminal and classic articles that have influenced the development of research in a particular area of study.

An original introduction by the editor establishes the core themes of each book. These collections are an essential source of reference for researchers, practitioners, academics and students.

A digital version is available exclusively on Elgaronline as a Research Review.
