

JULIE A. PÉRON

Department of Psychology . University of Geneva
Boulevard du Pont d'Arve 40 . 1211 Geneva 4 . Switzerland
julie.peron@unige.ch . <http://cenlab.ch/> . ORCID: 0000-0002-6579-4011

Google Scholar: Julie Péron

Born 27th March 1979 (Saint Cyr l'Ecole, France)

Swiss and French citizenship . Married, 1 child

Research and Teaching Interests

I study the neural bases of action control and emotions through clinical and experimental neuropsychology. My work focuses on subcortical structures, basal ganglia, subthalamic nucleus, and cerebellum, and their role in cognition and behavior, with applications to Parkinson's disease, post-COVID syndromes, and neuroimmunology. I also bridge research with clinical care and teaching.

Education

- 2008¹ PhD in Health Sciences, University of Rennes, France**
Thesis entitled *"Role of the subthalamic nucleus and its cortico-subcortical connections in the recognition of facial and vocal expressions of emotion"*
Direct.: Prof. Marc Vérin (Behaviour and Basal Ganglia Unit (EA 4712))
Summa cum laude, "with highest honor"
- 2004¹ Master of Advanced Studies in Neuropsychology (DEA National de Neuropsychologie), University of Caen, France**
Research project entitled *"Role of direct personal experience in the preservation of knowledge in individuals with semantic dementia or Alzheimer's disease"*
Direct.: Prof. Pascale Piolino (INSERM) & Dr Serge Belliard (University Hospital of Rennes)
Magna cum laude, "with great honor"
- 2002 Postgraduate Diploma in Clinical Neuropsychology (DESS), University of Caen, France**
Research project entitled *"Hemispheric specialization in the identification of famous people. Comparative study of right and left temporal cortectomies in patients suffering from pharmaceutical treatment-resistant epilepsy"*
Direct.: Dr Serge Belliard (University Hospital of Rennes)
Magna cum laude, "with great honor"
- 2001 Bachelor's Degree in Psychology, University of Rennes, France**
Research project (3rd year) entitled *"Identification of famous people, access to semantic and morphological knowledge from names and faces"*
Direct.: Prof Alain Lieury (University of Rennes)
Cum laude, "with honor"
- 1997 French Baccalaureate (specialization: Philosophy and Ancient Greek)**
Lycée Emile Zola, Rennes, France
Cum laude, "with honor"

¹ Academic career specification: I conducted my master and PhD research whilst working full time as a clinical neuropsychologist in the Department of Neurology of Rennes University Hospital (see below, "clinical activity" section)

Employment history

Academic appointments

Since 2021	Associate professor of clinical neuropsychology Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
Since 2021	Director of the Master of Advanced Studies in neuropsychology Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
Since 2019	Director of the Clinical and Experimental Neuropsychology Laboratory (CENLab) Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2019-2021	Substitute senior lecturer and researcher (MER suppl.) 40% from 02/01/2019 to present Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2017-2021	Substitute senior lecturer (chargée de cours suppl.) 20% from 01/01/2017 to present Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2013-2018	Lecturer (maître-assistante) 40% from 01/01/2017 to 01/31/2019 - 60% from 04/01/2016 to 12/31/2016 100% from 04/01/2013 to 03/31/2016 Faculty of Psychology and Educational Sciences University of Geneva, Switzerland
2009-2013	Postdoctoral research associate (100%) 100% from 09/01/2009 to 03/31/2013 Swiss Center for Affective Sciences (NCCR Affective Sciences) University of Geneva, Switzerland
2000-2001	Teaching assistant University of Rennes, France

Clinical positions (15 years full time equiv. since 2001)

Since 2021	Clinical neuropsychologist consultant Neurology Department, University Hospitals of Geneva, Switzerland
2019-2021	Head-psychologist of the Adult Clinical Neuropsychology Unit Neurology Department, University Hospitals of Geneva, Switzerland
2016-2021	Clinical neuropsychologist 70% 01/03/2019-31/08/2021 - 40% from 04/01/2016 to 31/02/2019 Neurology Department, University Hospitals of Geneva, Switzerland
2002-2009	Clinical neuropsychologist (100%) Neurology Department, Pontchaillou University Hospital, Rennes, France
2001-2002	Internship in clinical neuropsychology (100%) Brittany Regional Memory Resource and Research Centre (CMRR) Neurology Department, Pontchaillou University Hospital, Rennes, France

Personal training

2021 **EMBO Lab “Leadership for group leaders” course**
University of Geneva, Geneva, Switzerland

Career breaks

2017-2019 **Maternity leave**
An extended period of maternity leave to bring up my daughter until she is old enough to start nursery school

Since 2001 **Clinical activity**
A full-time equivalent rate of 15 years as a clinical neuropsychologist

Gross academic age (since the first publication in 2006) = 19 years

Clinical activity (since 2006) + maternity leave = 11 years

Net academic age = 8 years

Awards and honours

- 2024 Nelson Butters Award for Research Contributions to Clinical Neuropsychology - National Academy of Neuropsychology (USA)**
 Paper entitled: Frequency of Abnormally Low Neuropsychological Scores in Post-COVID-19 Syndrome: the Geneva COVID-COG Cohort, *Archives of Clinical Neuropsychology*.
- 2011 Brittany Regional Council (France): Young Investigator Award**
- 2010 French-Speaking Neuropsychological Society (SNLF): Alain Agniel Prize**
- 2009 Society for Neuroscience (SfN): SfN Hot Topics 2009**
 Paper entitled "Recognition of emotional prosody is disrupted after subthalamic nucleus deep brain stimulation in Parkinson's disease" selected with 500 others, out of a total of 18,000 submissions, for inclusion in the 'SfN Hot Topics 2009' at the annual meeting of the Society for Neuroscience (Chicago, USA, October 17-21st)
- 2008 American Academy of Neurology: Future of Neuroscience**
 Paper entitled "Subthalamic nucleus stimulation affects orbitofrontal cortex in facial emotion recognition: A PET study" selected for the 'Future of Neuroscience' session at the 60th Annual Meeting of the American Academy of Neurology (Chicago, USA, April 12-19th)
- 2007 Parkinson's Disease and Movement Disorders Society: Highlighted posters**
 Paper entitled "Recognition of negative emotions is impaired by subthalamic nucleus deep brain stimulation in Parkinson's disease" selected for the 'Highlighted posters' session at the XIth International Congress of Parkinson's Disease and Movement Disorders (Istanbul, Turkey, June 3-7th).

Distinctions Earned by Mentees for Supervised Work

- 2024 Swiss Finalist, "My Thesis in 180 Seconds" (MT180): P. Voruz²**
- 2024 University of Geneva Finalist, "My Thesis in 180 Seconds" (MT180): A. Nuber-Champier**
- 2024 University of Geneva Finalist, "My Thesis in 180 Seconds" (MT180): P. Voruz**
- 2023 Neuropsychological French-speaking Days (Journées romandes de neuropsychologie) Days, "Best Poster Award": A. Nuber-Champier**
 Paper entitled: Nuber-Champier, A., Cionca, A., Breville, G., Voruz, P., Jacot de Alcântara, I., Allali, G., Lalive, PH, Benzakour, L., Lövblad, K.-O. Braillard, O., Nehme, M., Coen, M., Serratrice, J., Reny, J.-L., Pugin, J., Guessous, I., Landis, BN, Griffa, A., Van De Ville, D., Assal, F., & **Péron, JA** (2023). Acute TNFα levels predict cognitive impairment 6-9 months after COVID-19 infection. *Psychoneuroendocrinology*, 153, 106104.
- 2022 Vasco Sanz foundation, "2023 Vasco Sanz prize": P. Voruz.**
 Paper entitled: Voruz, P., Cionca, A. Jacot de Alcântara, I., Nuber-Champier, A., Allali, G., Benzakour, L., Thomasson, M., Lalive, P., Lövblad, KO., Braillard, O., Nehme, M., Coen, M., Serratrice, Pugin, J., Guessous, I., Landis, BN., Adler, D. Griffa, A., Van De

² The Swiss final is the national stage following university-level selection.

Ville, D, Assal, F., & **Péron, J.A.** (2022) Functional connectivity underlying cognitive and psychiatric symptoms in post-COVID syndrome: Is anosognosia a key determinant? *Brain Communications*, 9;4(2):fcac057. doi: 10.1093/braincomms/fcac057.

2022

Swiss Society of Neurology, “Déjérine-Dubois prize”: P. Voruz

Paper entitled: Paper entitled: Voruz, P., Cionca, A. Jacot de Alcântara, I., Nuber-Champier, A., Allali, G., Benzakour, L., Thomasson, M., Lalive, P., Lövblad, KO., Braillard, O., Nehme, M., Coen, M., Serratrice, Pugin, J., Guessous, I., Landis, BN., Adler, D. Griffa, A., Van De Ville, D, Assal, F., & **Péron, J.A.** (2022) Functional connectivity underlying cognitive and psychiatric symptoms in post-COVID syndrome: Is anosognosia a key determinant? *Brain Communications*, 9;4(2):fcac057. doi: 10.1093/braincomms/fcac057.

2021

French-Speaking Neuropsychological Society, “Best Poster Award”: A. Nuber-Champier)

Paper entitled: Nuber-Champier, A., Voruz, P., Jacot de Alcantara, I., Breville, G., Allali, G., Lalive, P., Assal, F., **Péron, J.A.** (2022) Monocytosis in the acute phase of SARS-CoV-2 infection predicts the presence of anosognosia for cognitive deficits in the chronic phase. *Brain, Behaviour and Immunity – Health*

cognition in Parkinson's disease"*

Conferences / colloquia

Invited conference presentations

1. Annual Research Forum (ARF), February 2025. Geneva, Switzerland: *"Altered self-perception and awareness in long Covid patients"*.
2. TraumaCare Symposium, February 2025. Geneva, Switzerland: "From Childhood to Adulthood: What Are the Impacts of Childhood Trauma?" chairwoman
3. Swiss Society for Microbiology annual congress 2023, Session NRP78 "COVID-19" Science, Implementation, Communication, August 30-31, Ecole Polytechnique Fédérale de Lausanne, Switzerland: *"The COVID-COG project: Science, Communication, Implementation"*
4. French speaking Neuropsychological Society (SNLF), May 2023, Caen, France: *"Emotional processing in Parkinson's disease"*
5. Signoret Seminar, French speaking Neuropsychological Society (SNLF) (Tribute to Béatrice Desgranges), March 21-23 2023, Caen, France: *"Emotions and Parkinson's disease"*
6. Emotions, cognition and behavior - An Itinerant Brainforum dedicated to Rita Levi-Montalcini, November 25 2022, Geneva, Switzerland: *"Long COVID: understanding the cognitive and emotional effects"*
7. French speaking Neuropsychological Society (SNLF), May 23-24 2022, Evian-Les-Bains, France: *"Beyond the cortico-centric vision: contribution of the neuropsychology of emotion"*
8. French speaking Neuropsychological Society (SNLF), December 3 2021, Paris, France: *"Neuropsychological post-COVID syndrome"*
9. 5th Annual Symposium of Neurology HUG-CHU, Dec. 2020, Geneva, Switzerland: *« Neuropsychological post-COVID syndrome »*
10. National Congress of Clinical Neuropsychology (CNCN 3), 2018, Amiens, France:

“Crossed views on French-speaking neuropsychology”

11. 10th International Congress of Neuropsychology of Frontal Lobes and Executive Functions, 2018, Angers, France (Professeur Allain): *“Neuropsychology of habit”*
12. International deep brain stimulation symposium, Charité University Hospital, 2016, Berlin, Germany: chairwoman
13. 11th International Congress on Non-Motor Dysfunctions in Parkinson’s Disease and Related Disorders, 6–9 October 2016, Ljubljana, Slovenia: *“Emotional role of the subthalamic nucleus”*
14. 29th European College of Neuropsychopharmacology, 2016, Vienna, Austria: *“Emotional role of the subthalamic nucleus”*
15. 15th European Congress on Clinical Neurophysiology, 2015, Brno, Czech Republic: *“Emotional role of the subthalamic nucleus”* + chairwoman
16. French speaking Psychiatry and Neurological Society (SNLF), 2015, Tours, France: *“Emotional role of the subthalamic nucleus”*
17. Signoret annual congress, 2015, Caen, France: *“Emotional role of the subthalamic nucleus”*
18. French speaking Neuropsychological Society (SNLF), 2010, Lille, France: *“Subthalamic nucleus stimulation affects theory of mind network: A PET study in Parkinson’s disease”*
19. French speaking Neurological Society, 2009, Lille, France: *“Subthalamic nucleus stimulation affects facial emotion recognition: A PET study in Parkinson’s disease”*

Invited talks in colloquia

1. Division of General Internal Medicine, Department of Medicine, Geneva University, Switzerland, 2025
2. Division of General Internal Medicine, Department of Medicine, Geneva University, Switzerland, 2024
3. Rhinology-Olfactology Unit, Otorhinolaryngology Department, Geneva University Hospitals, Switzerland, 2024
4. Interfaculty Center of Gerontology (CIGEV), University of Geneva, 2023
5. Memory Center, University Hospitals of Geneva, Geneva, Switzerland, 2023
6. Leenaards Memory Center, Lausanne, Switzerland, 2022
7. Neuropsychology Unit, Hospital of Caen, France, 2019
8. Neuropsychology Unit, Hospital of Angers, France, 2019,

9. Neuropsychology Unit, Hospital of Neuchâtel, Switzerland, 2019
10. Neuropsychology Unit, Hospital of Neuchâtel, Switzerland, 2018
11. Neurology/Neuropsychology Hospital of Fribourg, Switzerland, 2018
12. Interfaculty Center of Gerontology (CIGEV), University of Geneva, 2016
13. Clinical Neuroscience Seminar, Lausanne University Hospital, Switzerland 2015
14. Swiss Doctoral School in Affective Sciences, CISA, University of Geneva, 2015
15. Geneva Motivation Lab, Faculty of Psychology, University of Geneva, 2014
16. French Academy of Sciences, Rennes, France, 2014
17. Department of Neurology, Charité University Hospital, Berlin, Germany, 2013
18. Department of Neurology, Heinrich Heine University, Düsseldorf, Germany, 2013
19. Adult Clinical Neuropsychology Unit, Geneva University Hospitals, 2013
20. Brain and Spine Institute, Paris, France, 2013
21. Department of Neurology, Geneva University Hospitals, Switzerland, 2013

Invited professional presentations declined for maternity leave

- Department of Anatomical, Histological, and Forensic Medicine, University Sapienza Roma, Italia, 2018
- 7th edition - Human Ressources Annual Forum, Scienceo, Nantes, France, 2018
- 37th European Winter Conference on Brain Research, Les Arcs 1800, France, 2017

Oral communications

1. Constantin I.M., Sautebin A., Voruz P., Thomasson M., Grandjean D., Assal F. & **Péron J.A.** (2024). Relation entre impulsivité et reconnaissance des émotions vocales suivant un accident vasculaire cérébral cérébelleux. Journée d'hiver de la SNLF 2024. Paris, France (oral communication).

Continuous subcutaneous apomorphine infusion: an effective and cognitive well-tolerated solution for untreatable motor fluctuations in patients with Parkinson's disease. *American Academy of Neurology*, Miami, avril (poster).

Scientific coordination of multicentre projects

Since 2023	Coordinator of the study entitled: "Longitudinal evolution of neurocognitive impairments following COVID-19 infection" `TRAJECTORY` project - PI: Prof. Péron - Sponsor: Swiss National Science Foundation (SNSF) - Centres involved: University Hospitals of Geneva, Leenaards Memory Centre (Lausanne University Hospital), École Polytechnique Fédérale de Lausanne
Since 2019	Coordinator of the study entitled: "Role of personality in multiple sclerosis: cognitive, affective, and neural correlates" COGNISEP protocol - PI: Prof. Péron - Sponsor: Swiss SEP Society - Centres involved: Neuroimmunology Unit (University Hospitals of Geneva), Leenaards Memory Centre (Lausanne University Hospital), Swiss MS Cohort Study (SMCS)
Since 2014	Coordinator of the study entitled: "<i>Role of the cerebellum in emotional processing: insights from stroke patients</i>" `CEREBEMO` protocol - PI: Prof. Péron - Sponsor: University Hospitals of Geneva - Centres involved: University Hospitals of Geneva and Lausanne University Hospitals
2020-2023	Coordinator of the study entitled: "Neuropsychological consequences of COVID-19 infection" `COVID-COG` project - PI: Prof. Péron - Sponsor: Swiss National Science Foundation (SNSF) - Centres involved: University Hospitals of Geneva, Leenaards Memory Centre (Lausanne University Hospital), École Polytechnique Fédérale de Lausanne
2014-2018	Coordinator of the neuropsychological assessments of the study entitled: "<i>Deep brain stimulation in patients suffering from chronic, treatment-resistant depression</i>" (`STHYM` - National PHRC) - PI: Prof. Millet - Sponsor: Rennes University Hospital - Centres involved: Bordeaux, Clermond-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière Hospitals
2014-2018	Coordinator of the ancillary study entitled "<i>Electrophysiological activity of the ventral striatum during the processing of emotional prosody in patients with chronic, treatment-resistant depression</i>", within the framework of the `STHYM` protocol centres involved: Bordeaux, Clermond-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière hospitals)
2008-2012	Coordinator of the ancillary study entitled "<i>Effects of high-frequency subthalamic nucleus deep brain stimulation on the recognition of emotions communicated by the voice in patients with obsessive-compulsive disorder</i>", within the framework of the `STOC UNI-BIL` protocol. PI: Dr Jaafari, Department of Adult Psychiatry, Poitiers University Hospital, France. Sponsor: Poitiers University Hospital (centres involved: Clermond-Ferrand, Lyon, Marseille, Nancy, Nice,

Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne hospital)

2008-2013 **Coordinator of neuropsychological assessments** under the aegis of the **‘Pre-STHYM’ protocol** "*Preliminary study assessing the effectiveness of deep brain stimulation in patients suffering from chronic, treatment-resistant depression*". PI: Prof. Millet (centres involved: Bordeaux, Clermond-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière hospitals)

2008- 2013 **Coordinator of the ancillary study** entitled "*Electrophysiological activity of the ventral striatum during the processing of emotional prosody in patients with chronic, treatment-resistant depression*", within the framework of the **‘Pre-STHYM’ protocol** (centres involved: Bordeaux, Clermond-Ferrand, Grenoble, Lille, Lyon, Marseille, Nancy, Nantes, Nice, Poitiers, Rennes and Toulouse university hospitals, and Paris Ste-Anne and Pitié-Salpêtrière hospitals)

Supervision

Post-doctoral supervision

2024 Dr. Voruz, Faculty of Psychology, University of Geneva, CH
2023 Dre. Thomasson, Faculty of Psychology, University of Geneva, CH
2022 M. Schaerleken, Faculty of Psychology, University of Geneva, CH
2019-2020 M^{me} Pierce, Faculty of Psychology, University of Geneva, CH

Current PhD supervision

Since 2025 M. Baldoni, Faculty of Psychology, University of Geneva, CH
"Immuno-affective relationships in the COVID-19 condition"
Since 2023 M^{me} Ioana M. Constantin, Faculty of Psychology, University of Geneva, CH
"Neuropsychological features in asymmetric Parkinson's disease"
Since 2023 M. Anthony Nuber-Champier, Faculty of Psychology, University of Geneva, CH
"Immuno-cognitive relationships in the COVID-19 condition"
Since 2021 M^{me} Jacot de Alcantara, Faculty of Psychology, University of Geneva, CH
"Impact of personality on cognition in multiple sclerosis"

Completed PhD supervision

2019-2024 M. Voruz, Faculty of Psychology, University of Geneva, CH
"Impact of motor asymmetry on non-motor symptoms in Parkinson's disease"
2018-2022 M^{me} Thomasson, Faculty of Psychology, University of Geneva, CH
"Specialisation and functional integration of the cerebellum in the recognition of emotional vocal expressions"

Research assistantship – scientific supervision

2025 M^{me} Eggs Méline, Faculty of Psychology, University of Geneva, CH
2025 M^{me} Delobel, Faculty of Psychology, University of Geneva, CH
Since 2024 M. Baldoni, Faculty of Psychology, University of Geneva, CH
Since 2024 M^{me} Chevalley, Faculty of Psychology, University of Geneva, CH

2021-2023	M ^{me} Constantin, Faculty of Psychology, University of Geneva, CH
2019-2022	M ^{me} Mantelli, Faculty of Psychology, University of Geneva, CH
2020-2021	M ^{me} Jacot de Alcantara, Faculty of Psychology, University of Geneva, CH

Examination

Authorization to direct research (habilitation à diriger les recherches)

2024	Dr M. Laisney, Habilitation à diriger les recherches, Ecole Pratique des Hautes Etudes, Section Sciences de la vie et de la Terre, GRET Neurosciences, UMR-S1077 INSEWRM-EPHE, Caen, France (referee)
-------------	---

PhD dissertation committees

As a referee

2026	M ^{me} Cabello, PhD in Psychology, Liège University, Belgium
2026	M ^{me} Denève, PhD in Neurosciences, INSERM, Lille University, France
2025	M ^{me} Marti, PhD in Neurosciences, UNIGE, Geneva, Switzerland <i>“The interplay between structure and function in the neural organization of working memory”</i>
2023	M ^{me} Requier, PhD in Neuropsychology, Liège University, Belgium <i>“Investigating the influence of meditation on cognition in the aging population”</i>
2022	M ^{me} Lepetit, PhD in Neuropsychology, Caen University, France <i>“Analyses et bases cérébrales de la théorie de l’esprit : rôles et interactions fonctionnelles du cortex préfrontal médian”</i>
2022	M. Bendetowicz, PhD in Neuroscience, Sorbonne University, Paris <i>“Motivation intrinsèque pour le choix dans la maladie de Parkinson”</i>
2021	M ^{me} Tabbal, PhD in Signal processing, University of Rennes, France in joint supervision with the Lebanese University, Lebanon <i>“Dynamique des réseaux cérébraux électrophysiologiques (dys)fonctionnels”</i>
2020	M. Perlata, PhD in Mathematics and Science and Technology of Information and Communication, Université de Rennes 1, France <i>“Data driven methods to support decision making in deep brain stimulation for Parkinson's disease”</i>
2019	M ^{me} Smith, PhD in Neuroscience, Sorbonne University, Paris <i>“Etude transnosographique de l’obsession et de la compulsion dans le trouble obsessionnel compulsif et l’addiction à la cocaïne »</i>
2018	M. Benzina, PhD in Neuroscience, Sorbonne University, Paris <i>“Apport d’une approche translationnelle dans l’étude du lien entre flexibilité cognitive et compulsion ».</i>

As an adviser

2025	M ^{me} Cataldo, PhD in Neuroscience, Mid-Term examination, Ecole doctorale de neurosciences, UNIGE, Geneva, Switzerland
2021	M ^{me} Beser, PhD in Neuroscience, Ecole doctorale de neurosciences, UNIGE, Geneva, Switzerland

- 2016** M^{me} Argaud, PhD in Psychology, FPSE, UNIGE, Geneva, Switzerland
“Reconnaissance des émotions exprimées sur le visage : vers une compréhension des mécanismes à travers le modèle parkinsonien ».

Medicine dissertation committees (referee)

- 2010** Dre Gibou, Neurology, University Hospital of Rennes, France
“Effet de la stimulation dopaminergique continue par pompe à apomorphine sur les fluctuations motrices, cognitives et psychiques de patients parkinsoniens évolués et corrélats métaboliques cérébraux par 18 FDG-PET »
- 2009** Dre Ory, Neurology, University Hospital of Rennes, France
“Effet de la stimulation chronique à haute fréquence du noyau-sous-thalamique sur l’expérience émotionnelle chez les patients atteints de la maladie de Parkinson »
- Dre el Tamer, Psychiatry, University Hospital of Rennes, France
“Dépression et prosodie émotionnelle : abord neuropsychologique »
- 2006** Dr lazar, Neurology, University Hospital of Rennes, France
“L’IRM préopératoire est-elle prédictive du bénéfice de la stimulation sous-thalamique dans la maladie de Parkinson ? »

Teaching

Teaching

Graduate courses/colloquia

denotes mandatory courses

- # Since 2021 *“Research colloquium in integrative clinical psychology”*, Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 50 students – oral presentations
- # Since 2021 *“Neuropsychology”* (3 ECTS in French), Bachelor in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 240 students - forced-choice questions
- # Since 2021 *“Habits and memory systems”* (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 80 students - forced-choice questions
- # Since 2021 *“Advanced Issues in Adult Clinical Neuropsychology”* (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 25 students - forced-choice questions
- Since 2022 *“Adult Neuropsychology Assessment and Intervention”* (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 25 students - open questions
- 2018-2020 *“Adult Clinical Neuropsychology”* (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland – approx. 80 students - forced-choice questions
- 2018-2020 *“Adult Neuropsychology Assessment and Intervention”* (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 80 students - open questions
- 2016-2021 *“Neuropsychology of habit”* (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 80 students – oral exam
- 2013-2016 *“Behavioural Integration, Action Organisation, and Emotional Processing”* (3 ECTS in French), Master in Affective Psychology and Neuroscience, Department of Psychology and Educational Sciences, University of Geneva, Switzerland - approx. 15 students – oral exam

Graduate Lectures

- 2018-2021 *“Cognition: emotional processing and social cognition”* (3hrs lecture in French), Master in Clinical Neuroscience, Department of Health Sciences, University of Upper Brittany, Rennes, France
- 2016-2020 *“Experimental Neuropsychology: emotional processing in Parkinson’s disease”* (3hrs lecture in English), Master in Neuroscience, Department of Medicine, University of Geneva, Switzerland

- 2014-2016** “*Emotional processing in Parkinson’s disease*” (2hrs lecture in French), National French Master in Neuropsychology and Neuroscience, University of Lyon 2, France
- 2007-2009** "*Neuropsychology of Human Memory*" (6hrs lecture in French), "*Neuropsychology of Instrumental Functioning*" (4hrs lecture in French), "*Neuropsychology of Executive Functions*"(4hrs lecture in French), "*Neuropsychology of Emotional Processes and Social Cognition*"(4hrs lecture in French), M2 in Animal and Human Behaviour, Department of Life and Environmental Science, University of Rennes I, France
- 2006-2009** "*Clinical Neuropsychology, a Cognitive Approach*" (4hrs lecture in French), "*Deep Brain Stimulation in Neuropsychiatric Pathologies*" (4hrs lecture in French) M1 in Animal and Human Behaviour, University of Rennes I, France
- 2004-2005** "*The Neuroanatomy of Language*" (4 hrs lecture in French), M2 in Cognitive Psychology, Department of Cognitive Psychology, University of Rennes, France

Postgraduate and continuing education lectures

- 2025** Lecture entitled “*Cognitive and neuropsychological consequences of post-COVID syndrome*”, Interuniversity MA2 Diploma for Neurologists and Geriatricians.
- 2023** Lecture entitled “*Neuropsychology of Multiple Sclerosis*”, Nurse Experts Meeting Romandie, Biogen Switzerland AG.
- 2021** Lecture entitled “*Neuropsychological post-COVID syndrome*”, Annual Continuing Education Conference of the Quebec Association of Neuropsychologists
- 2016** Lecture entitled “*Toward an integrative approach in clinical neuropsychology of emotion*”, Annual Continuing Education Conference of the Swiss Association of Neuropsychologists
- 2005-2006** Lecture entitled "*Neuropsychological Assessment of Dementias*" (6hrs lecture in French), Postgraduate specialization and diploma in geriatrics, Faculty of Medicine, University of Rennes I, France

Dynamic teaching and educational material

- Since 2016** Simulated patient educational material for psychology and medical students and the scientific community: post-COVID syndrome simulation
- Since 2016** Simulated patient interaction and clinical practice workshop in the context of the course entitled: “*Adult Neuropsychology Assessment and Intervention*" (3 ECTS in French), Master in Psychology, Department of Psychology and Educational Sciences, University of Geneva, Switzerland
During this course, the student is invited to carry out a neuropsychological assessment from the analysis of the request to the restitution to the patient and the family, including the psychometric evaluation and the anamnesis. To do so, he/she must deal with a credible file and be trained in exchanges in a realistic but controlled situation.

- 2016** Participation of the Massive Open Online Course (MOOC) in Neuroscience entitled: "*Audition, language, music*"
- 2003** Participation in the development of a DVD, in partnership with Lundbeck, on a neuropsychological tool for assessing patients in the advanced stages of Alzheimer's disease and associated disorders (Severe Impairment Battery, SIB) aimed at geriatricians and neurologists.

Supervision (see also "research and clinical activity")

Master of Advanced studies in neuropsychology - supervision of the thesis

- 2024** M^{me} Meziane, Faculty of Psychology, University of Geneva, CH (completed)
« *Evaluation et rééducation en phase chronique d'un patient victime d'un AVC ischémique sylvien droit.* »
- 2023** M^{me} Pittet, Faculty of Psychology, University of Geneva, CH (completed)
« *Discrépance entre données radiologiques et tableau clinique chez un patient atteint de sclérose en plaques.* »
- 2022** M^{me} Totaro, Faculty of Psychology, University of Geneva, CH (completed)
« *Présentation d'une rééducation du traitement numérique et de la mémoire de travail verbale après un traumatisme crânio-cérébral sévère et discussion sur les défis du retour au travail.* »

Master in Neuro-Engineering - co-supervision of the semester project (completed)

- 2024** M. Morvan, Neuro-X, EPFL, University of Lausanne, CH
« *Identifying Connectomic Signatures of SARS-CoV-2.* »

Master in Psychology - supervision of the thesis (current)

- Since 2024** M^{me} Ali Mohamed, Faculty of Psychology, University of Geneva, CH
M^{me} Caloz, Faculty of Psychology, University of Geneva, CH
M^{me} Pillet, Faculty of Psychology, University of Geneva, CH
M^{me} Sladen, Faculty of Psychology, University of Geneva, CH
M^{me} Plummer, Faculty of Psychology, University of Geneva, CH
M^{me} Neuweiler, Faculty of Psychology, University of Geneva, CH
M^{me} Motz, Faculty of Psychology, University of Geneva, CH
M^{me} Camposampiero, Faculty of Psychology, University of Geneva, CH
- Since 2023** M^{me} Nguyen, Faculty of Psychology, University of Geneva, CH
- Since 2022** M^{me} Uldry, Faculty of Psychology, University of Geneva, CH

Master in Psychology - supervision of the thesis (completed)

- 2023-2025** M^{me} Hazeraj, Faculty of Psychology, University of Geneva, CH
« *Relation entre impulsivité et attention dans le traitement émotionnel auprès de patients ayant subi un accident vasculaire cérébral ischémique cérébelleux* »
- M^{me} Eggs, Faculty of Psychology, University of Geneva, CH

- “Rôle de la réserve cognitive et de la flexibilité mentale sur les stratégies d’adaptation utilisées chez les personnes vivant avec la sclérose en plaques”*
M^{me} Bouvier, Faculty of Psychology, University of Geneva, CH
- “Relation entre les symptômes dépressifs et la latéralisation lésionnelle dans le traitement émotionnel suite à un accident vasculaire du cervelet”*
M^{me} Amor, Faculty of Psychology, University of Geneva, CH
- “How does the roughness of human screams affect the consolidation of events and their context?”*
M^{me} Colin, Faculty of Psychology, University of Geneva, CH
- “Explorer la reconnaissance des émotions musicales et faciales dans la dégénérescence lobaire fronto-temporale au stade précoce”*
M^{me} Delobel, Faculty of Psychology, University of Geneva, CH
- “Exploration des liens entre la personnalité, la dépression et les performances cognitives en mémoire épisodique verbale chez les personnes atteintes de sclérose en plaques”*
- 2022-2025** M^{me} Colombel, Faculty of Psychology, University of Geneva, CH
“The role of habit in the persistence of anorexia nervosa: Can manipulating distraction levels in a dual task paradigm allow for a valid detection of habitual restrictive eating behaviour? Preliminary Results”
- 2022-2024** M. Baldoni, Faculty of Psychology, University of Geneva, CH
“Ce n’est pas mon corps ! La conscience du soi-corporel perturbée chez les patients neurologiques”
M^{me} Berset, Faculty of Psychology, University of Geneva, CH
“Traitement de la négligence spatiale unilatérale par adaptation prismatique en phase aiguë”
M^{me} Cupertino, Faculty of Psychology, University of Geneva, CH
“La confusion du contexte temporel étudiée avec l’approche de dissociation de Processus”
- 2021-2024** M^{me} Ibo, Faculty of Psychology, University of Geneva, CH
« Analyse longitudinale de la qualité de vie dans le cadre du syndrome post-Covid-19. Le rôle de la mémoire épisodique, de l’anxiété et de l’anosmie. »
- 2021-2024** M^{me} Kuhn, Faculty of Psychology, University of Geneva, CH
“Utilité de l’application sur tablette « Adaptive Cognitive Evaluation (ACE) Explorer » pour le dépistage du déclin cognitif chez des patient-e-s consultant les Centres mémoire »
M^{me} Hossain, Faculty of Psychology, University of Geneva, CH
“Reconnaissance d’émotions musicales dans la dégénérescence lobaire fronto-temporale et la maladie d’Alzheimer : intérêt pour le diagnostic différentiel précoce ? »
M^{me} Schenkel, Faculty of Psychology, University of Geneva, CH
“L’effet d’une intervention à base d’une tâche visuospatiale de type Tetris® visant la réduction de souvenirs intrusifs dans une population de réfugiés »
- 2021-2023** M. Liardet, Faculty of Psychology, University of Geneva, CH
“L’anosognosie de la maladie chez des patients post-AVC hémisphérique droit, analyse du lien avec les capacités de flexibilité affective”
M^{me} di Fiore, Faculty of Psychology, University of Geneva, CH

"L'anosognosie pour la maladie chez des patients post-AVC hémisphérique droit : inconscience explicite, implicite ou les deux ?"

M^{me} Chassot, Faculty of Psychology, University of Geneva, CH

"Rôle du cervelet dans la mémoire épisodique verbale et la reconnaissance de la prosodie émotionnelle : étude auprès de personnes ayant subi un AVC ischémique cérébelleux"

M^{me} Christe, Faculty of Psychology, University of Geneva, CH

"Intervention psychosociale à basse intensité pour personnes migrantes"

2020-2022 M^{me} Verger, Faculty of Psychology, University of Geneva, CH

"Développement et validation d'un questionnaire sur les habitudes"

M^{me} Charpiloz, Faculty of Psychology, University of Geneva, CH

"Les conséquences neuropsychologiques à la suite d'une infection au SARS-CoV-2 : l'anosognosie des déficits mnésiques est-elle indicatrice de la présence de troubles mnésiques et émotionnels ?"

2019-2021 M^{me} de Jesus Pereira, Faculty of Psychology, University of Geneva, CH

"Évaluation de la motivation et de la cognition chez les patient-e-s atteint-e-s d'hydrocéphalie à pression normale"

2018-2020 M^{me} Thorimbert, Faculty of Psychology, University of Geneva, CH

"Développement et validation d'un questionnaire sur les habitudes"

2016-2018 M^{me} Wenig, Faculty of Psychology, University of Geneva, CH

"Influence des processus émotionnels sur la formation des habitudes dans une perspective « dite » de parcours de vie"

2015-2018 M^{me} Doudenkova, Faculty of Psychology, University of Geneva, CH

"Influence des paramètres de la stimulation cérébrale profonde du noyau subthalamique dans la maladie de Parkinson sur la reconnaissance de la prosodie émotionnelle"

2015-2017 M^{me} Thomasson, Faculty of Psychology, University of Geneva, CH

"Le rôle du cervelet dans la reconnaissance de la prosodie émotionnelle : étude auprès de patients cérébrolésés"

M^{me} Cobarro, Faculty of Psychology, University of Geneva, CH

"Reconnaissance de la prosodie émotionnelle dans une perspective lifespan"

M^{me} André, Faculty of Psychology, University of Geneva, CH

"La formation et l'expression des habitudes avec l'âge"

2014-2016 M^{me} Correa-Batiz, Faculty of Psychology, University of Geneva, CH

"Impact des paramètres acoustiques et des fonctions exécutives sur la reconnaissance des émotions communiquées par la voix chez une population dépressive et non dépressive"

M^{me} Gavand, Faculty of Psychology, University of Geneva, CH

"Influence des processus émotionnels sur la formation des habitudes"

2012-2014 M^{me} Siegenthaler, Faculty of Psychology, University of Geneva, CH

"Emotions induites par la musique et syndrome parkinsonien"

M^{me} Python, Faculty of Psychology, University of Geneva, CH

"Spécialisation fonctionnelle du noyau subthalamique dans l'architecture neuronale sous-tendant le traitement de la prosodie émotionnelle : une étude chez les patients parkinsoniens stimulés"

2009-2010 M^{me} Guillemot, Faculty of Psychology, University of Rennes, France

Research internship – scientific supervision

2024-2025 M^{me} Cascioli, Faculty of Psychology, University of Geneva, CH
2022-2023 M^{me} Sautebin, Faculty of Psychology, University of Geneva, CH
2023-2024 M^{me} Colombel, Faculty of Psychology, University of Geneva, CH
2022-2023 M^{me} Guérin, Faculty of Psychology, University of Geneva, CH
2019-2020 M^{me} Paraskevi Antoniou, Faculty of Psychology, University of Geneva, CH
M^{me} Fragnoli, Faculty of Psychology, University of Geneva, CH
2018-2019 M^{me} Selosse, Faculty of Psychology, University of Geneva, CH
M. Voruz, Faculty of Psychology, University of Geneva, CH
2016-2017 M^{me} Stirnimann, Faculty of Psychology, University of Geneva, CH

Examination

Master of Advanced studies in clinical neuropsychology

2025 M^{me} Sizonenko, annual patient case, MAS in neuropsychology, FPSE
Mr Fernandez, annual patient case, MAS in neuropsychology, FPSE
M^{me} Bugnon. annual patient case, MAS in neuropsychology, FPSE
M^{me} Bugnon. annual article presentation, MAS in neuropsychology, FPSE
2024 M^{me} Albanese, annual patient case, MAS in neuropsychology, FPSE
M^{me} Sugnaux, annual patient case, MAS in neuropsychology, FPSE
M^{me} Verger, annual patient case, MAS in neuropsychology, FPSE
M^{me} Sizonenko, annual patient case, MAS in neuropsychology, FPSE
Mr Junod, annual patient case, MAS in neuropsychology, FPSE
Mr Catti, annual patient case, MAS in neuropsychology, FPSE
M^{me} Chretien, annual patient case, MAS in neuropsychology, FPSE
M^{me} Cocco, annual patient case, MAS in neuropsychology, FPSE
M^{me} Gaffuri, annual patient case, MAS in neuropsychology, FPSE
M^{me} Keller, annual patient case, MAS in neuropsychology, FPSE
M^{me} Maradan, annual patient case, MAS in neuropsychology, FPSE
Mr Garcia, annual patient case, MAS in neuropsychology, FPSE
Mr Garcia, annual article presentation, MAS in neuropsychology, FPSE
2023 M^{me} Borgognon, thesis, MAS in neuropsychology, FPSE, UNIGE
*“Évolution d’un syndrome thalamique chez un patient avec lésions d’AVC
ischémiques thalamique gauche, pontique et cérébelleuses bilatérales”*
2022 M^{me} Narcisi, annual patient case, MAS in neuropsychology, FPSE
M^{me} Novoa, annual patient case, MAS in neuropsychology, FPSE
M^{me} Martins, annual patient case, MAS in neuropsychology, FPSE

Master level in Psychology

2025 M^{me} Kovacevic, Master in Psychology, FPSE, UNIGE
*“Le rôle des besoins spécifiques de l’enfant dans l’apparition du
Burnout parental”*
M. Pittet, Master in Psychology, FPSE, UNIGE

"L'abord de la sexualité chez les professionnels de la santé mentale : Une scoping review sur les barrières et les facilitateurs cliniques existants "

M. Guyone-Hencke, Master in Neuroscience, Faculty of Science, UNIGE
"Peer's influence on the inhibition of an addictive behaviour and role of the subthalamic nucleus"

Research internship - scientific examination

- 2025** M^{me} Von Rakowski, Neurorehabilitation Dpt, CHUV, Lausanne, CH
- 2023** M^{me} Seiler, Neurorehabilitation Dpt, CHUV, Lausanne, CH
- 2022** M^{me} Radonjic, Leenaards Center for Memory, CHUV, Lausanne, CH
M^{me} Colombel, Neurorehabilitation Dpt, CHUV, Lausanne, CH
- 2021** M^{me} Sautebin, private neuropsychology practice, Geneva, CH

Master in Neuro-Engineering (completed)

- 2025** M^{me} Brotherson, Master GEOME, EPFL
"Diagnostic territorial de la neuropsychologie clinique en Suisse romande"

Clinical activity (see also supervision)

Licences to practice clinical psychology and other clinical qualifications

2016	Accreditation from the Swiss Association of Neuropsychologists Titre de spécialiste en neuropsychologie FSP
2015	Accreditation from the Federation of Swiss Psychologists Titre de psychologue FSP
2015	Training in eye movement desensitization and reprocessing (EMDR) therapy (Level 1) Swiss Institute of Psychotraumatology (IRPT), Lausanne, Switzerland
2014	Licence to practice in Geneva Droits de pratiques à titre indépendant, Canton de Genève
2002	Licence to practice in Europe ADELI registration no.: 359303815
2001-2004	Training in Ericksonian hypnosis "Emergences" association, Rennes, France

Neuropsychologist or investigator for institutionally funded clinical trials

2013-2019	Neuropsychologist and investigator - 'EMOPHYSIO 2' protocol <i>"Electrophysiological activity of the subthalamic nucleus in response to emotional prosody in patients suffering from Parkinson's disease and obsessive-compulsive disorders"</i> - Department of Neurology, Geneva University Hospitals (Collab. Prof. Pollak)
2010-2015	Neuropsychologist - 'STOC2' protocol (National programme for funding innovative techniques, PSTIC). <i>"Treatment of severe, treatment-resistant OCD by high-frequency stimulation of the ventral striatum and subthalamic nucleus. Randomized single-blind clinical trial with medical and economic assessment"</i> Sponsor: Bordeaux University Hospital
2009-2015	Neuropsychologist and investigator - 'Stroke and Emotions' protocol (National hospital-based clinical research programme, PHRC): <i>"Emotional processes and basal ganglia: Neuropsychological and neurophysiological study of modifications in emotional experience in patients in the chronic phase of ischaemic stroke. A pilot study"</i> . PIs: Prof. Timsit, Department of Neurology, Brest University Hospital & Prof. Vérin,
2009-2012	Neuropsychologist - 'STOC UNI-BIL' protocol (National PHRC): <i>"Non-inferiority study of the effect of treating severe and treatment-resistant forms of obsessive-compulsive disorder by high-frequency right or left unilateral versus bilateral stimulation of the subthalamic nucleus"</i> . PI: Dr Jaafari, University Hospital Centre, Poitiers, France
2009-2014	Neuropsychologist and investigator - 'EMODES' protocol (funding from the Brittany Regional Centre for Innovation and Technology Transfer, CRITT): <i>"fMRI investigation of emotional prosody and decision-making in depressive patients likely to attempt suicide"</i> . PI: Dr Travers, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Adult Psychiatry, Rennes University Hospital, France

2008-2013	Neuropsychologist - ‘Pré-STHYM’ protocol (private-sector funding from Medtronic): <i>"Preliminary study assessing the effectiveness of deep brain stimulation in patients suffering from chronic, treatment-resistant depression"</i> . PI: Prof. Millet, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Adult Psychiatry, Rennes University Hospital, France
2008-2013	Neuropsychologist - Ancillary study to ‘Pre-STHYM’ protocol: <i>"Effect of the chronic stimulation of the ventral striatum in depression on sexual and eating behaviour"</i> . PI: Dr Drapier, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Neurology, Rennes University Hospital, France
2008-2013	Neuropsychologist and investigator - Ancillary study to ‘Pre-STHYM’ protocol: <i>"¹⁸FDG-PET study of modifications in brain glucose metabolism in patients suffering from chronic, treatment-resistant depression receiving stimulation of the ventral striatum"</i> . PI: Dr Le Jeune, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Nuclear Medicine, CRLCC Eugène Marquis, Rennes, France
2008-2011	Neuropsychologist and investigator - ‘APOTEP’ protocol (private-sector funding from the Aguetant and Orkyn laboratories): <i>"Effect of continuous dopaminergic stimulation via apomorphine pump on motor, cognitive and mental fluctuations in advanced Parkinson's patients and ¹⁸FDG-PET cerebral metabolic correlates"</i> . PI: Prof. Vérin, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Neurology, Rennes University Hospital, France
2006-2008	Neuropsychologist - ‘STOC’ protocol (National PHRC): <i>"Treatment of severe obsessive-compulsive disorder by continuous bilateral subthalamic nucleus high-frequency deep brain stimulation"</i> . PI: Dr Mallet. Sponsor: Paris Public Hospital Authority, Regional Clinical Research Division
2005-2007	Neuropsychologist - ‘STIMPARK II’ protocol (Rennes University Hospital Clinical Research Committee, COREC): <i>"Analysis of selective attention mechanisms at different stages in the processing of emotional information in stimulated Parkinsonian patients"</i> . PI: Prof. Vérin, EA 4712 Behaviour and Basal Ganglia Research Unit, Department of Neurology, Rennes University Hospital, France

Consultant or investigator for privately-funded clinical trials

2022-2024	Investigator - GeNeuro SA – Phase II trial, Temelimab as a Disease Modifying Therapy in Patients With Neuropsychiatric Symptoms in Post-COVID 19 or PASC Syndrome
2010-2011	Neuropsychologist – Boston Scientific – Neuromodulation Division - VANTAGE STUDY Vercise™ implantable stimulator for treating Parkinson's disease
2010-2011	Neuropsychologist – Pierre Fabre Laboratories – Phase-II study assessing the effect of 6 months’ treatment with DC158AM on the fatigue of patients with Parkinson’s disease
2010-2011	Neuropsychologist – Lundbeck – Phase III of the 11018 study assessing the effectiveness and tolerance of Memantine® in patients with Parkinson’s disease and Lewy body dementia
2003-2004	Neuropsychologist –Pharmacyclics – Phase II of the PCYC-0211 study assessing the effectiveness of injections of Xcytrin® (otexafin gadolinium) in the treatment of brain metastases in patients with cancer

2003-2004	Consultant – Sanofi Synthélabo – Phase II of the EFC 5286 study assessing the effectiveness and tolerance of SR57667B in patients in the mild to moderate stages of Alzheimer’s disease
2003-2004	Neuropsychologist – Servier Laboratories – CORX-CX516-012 study assessing the effectiveness and tolerance of CX516 in patients with mild cognitive impairment (MCI)
2003-2004	Neuropsychologist – Lundbeck – Phase III of the 99679 study assessing the effectiveness and tolerance of Memantine® in patients in the mild to moderate stages of Alzheimer’s disease

Internship in neuropsychology – clinical activity supervision

2017-2021	M ^{me} Thomasson, University Hospitals of Geneva, CH M. Voruz, University Hospitals of Geneva, CH
2021	M ^{me} Marti, University Hospitals of Geneva, CH
2021	M ^{me} Constantin, University Hospitals of Geneva, CH
2020	M ^{me} Jacot de Alcantara, University Hospitals of Geneva, CH
2016-2017	M ^{me} Bapst, University Hospitals of Geneva, CH M ^{me} Müller, University Hospitals of Geneva, CH
2015-2016	M ^{me} Collignon, University Hospitals of Geneva, CH M. Genoud-Prachex, University Hospitals of Geneva, CH
2009-2010	M ^{me} Guillemot, University Hospital of Rennes, France
2008-2009	M. Christen, FPSE, University Hospital of Rennes, France

Management / administration

Direction

Since 2021 **Director of the Master of Advanced Studies in Neuropsychology, Faculty of Psychology, University of Geneva, Switzerland**

1. Human Resources and Personnel Management

- Oversight of HR and budget management for the MAS program
- Supervise teaching, administrative, and technical personnel:
 - Scientific adjuncts: Dre Rey (since 2024), Dre Esposito (2022-2024), Dre Zahnd (2021-2022)
 - Secretaries: M. Castro (since 2024), M^{me} Bigler (2021-2024)
 - Lecturers: Dre Esposito (since 2022), Dre Maillard (since 2024), Dr Voruz (since 2024).

2. Academic Programs and Teaching

- Oversight of all teaching activities and examinations within the MAS program
- Management of teaching evaluation processes to ensure quality and student satisfaction
- Coordination of admission procedures, including prerequisites, credit transfers, and integration with the pregraduate's program
- Development and periodic revision of the curriculum, including clinical placements, seminars, and research components
- Implementation of innovative teaching methods and tools.
- **Key figures (2021–2025):**
 - 96 enrolled students, 12 graduates, and 68 admissions
 - 325 annual exams (oral presentations of articles and case studies), including 29 in which I served as jury member
 - 39 final examinations, 38 final oral exams, including 14 where I served as examiner

3. Research Supervision and Academic Development

- Integration of research activities into teaching and program content
- Coordination of faculty research contributions and promotion of collaborative research initiatives

4. Regulations, Guidelines, and Accreditation

- Development and enforcement of program guidelines, including examination rules and academic regulations
- Management of accreditation procedures with the Federal Department of Home Affairs
- Handling of opposition procedures and related academic appeals

5. Administration, Quality Assurance, and Strategic Oversight

- Oversight of all administrative aspects of the MAS program
- Implementation of quality assurance measures, audits, and performance monitoring (student outcomes, satisfaction, professional integration)
- Strategic budget planning and resource allocation for teaching, research,

and program development

- Pursuit of external funding or sponsorship opportunities to support program initiatives

6. Institutional and External Relations

- Representation of the MAS program in academic committees, scientific councils, and professional networks
- Coordination with clinical partners, hospitals, and research institutes for student placements and collaborations
- Promotion of networking opportunities and career development for students and alumni

Since 2019 Creation and director of the Clinical and Experimental Neuropsychology Laboratory, University of Geneva, Switzerland

- 5 post-doctoral students
- 6 doctoral students
- 10 research assistants
- 6 auxiliary research assistants
- Teaching, administrative and technical personal under my hierarchical responsibility:
 - Engineers (neuroimaging): M^{me} Stiennon (since 2025), M. Cionca (2021-2023)
 - Teaching assistant dedicated to other lecturers but under my hierarchical responsibility: M^{me} Hussman (2022-2023)
 - Lecturers in neuropsychology under my hierarchical responsibility: Dre Esposito (since 2022), Dre Brioschi (since 2022), Dr Voruz (since 2024), MSc Nuber-Champier (2024-2025).

2019-2021 Head-psychologist of the Adult Clinical Neuropsychology Unit, Department of Neurology, University Hospitals of Geneva, Switzerland

1. Human Resources and Administrative Management

- Managed HR and budget for the neuropsychology unit.
- Oversaw administrative tasks, schedules, and staff role reassignment in emergency situations.

2. Clinical Oversight and Quality Assurance

- Analyzed and prioritized neuropsychological examination requests.
- Supervised and validated examination reports conducted by non-federal credential holders.
- Oversaw forensic neuropsychological assessments.
- Developed and maintained clinical guidelines and protocol recommendations.

3. Teaching, Training, and Continuing Education

- Supervised clinical interns (see Internship in Clinical Neuropsychology Supervision section).
- Provided continuing education and training for medical and non-medical staff.

- Organized and participated in bi-weekly clinical and scientific conferences.

4. Communication and Networking

- Facilitated information exchange and collaboration with unit managers, supervisors, and multidisciplinary medical teams.

5. Additional Responsibilities

- Coordinated with other hospital departments (neurology, psychiatry, rehabilitation).
- Contributed to clinical research projects and academic collaborations.
- Monitored quality indicators and ensured compliance with clinical standards.
- Mentored junior psychologists and clinical staff.

Participation in management bodies and appointment to professorship committee

2025	Member of the Committee for the tenure position of a professor of clinical psychology, Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland (Prof. Andreas Ihle)
2024	Member of the Focus group with faculty members of the Bachelor's program in Psychology - Audit of the Bachelor's program in Psychology
2024	Rapporteur and member of the Committee for the tenure position of a professor of clinical psychology, Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland (Prof. Maude Schneider)
2023	Member of the Committee for the appointment of a professor of clinical neuropsychology, Faculty of Psychology, University of Liège, Belgium
2023	Member of the Committee for the appointment of a senior lecturer in cognitive psychology, Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland
2022	Member of the Committee for the appointment of a professor in psychiatry, Faculty of Medicine, University of Geneva, Switzerland (appointment by calling of Prof. Marie Schaer)
Since 2021	Member of the COMEVAL Committee, Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland
Since 2021	Member of the Faculty Program Committee ("Cognitive psychology sub-section"), Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland
Since 2021	Member of the Faculty Program Committee ("Clinical psychology sub-section"), Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland
2013-2021	Member of the Faculty Program Committee ("Affective psychology sub-section"), Faculty of Psychology and Educational Sciences, University of Geneva, Switzerland

Service to the discipline

Participation in consortium and scientific committees, translation of research results into clinical guidelines

|-------------------|---|
| 2026 | Co-organizer of the World Head Injury Awareness Day 2026 (WHIAD 2026), Geneva, Suisse. |
| Since 2025 | Member of the COVID-19 task force of the Swiss Society of Neurology |
| 2025 | External reviewer for the Belgian Alzheimer Foundation, Scientific Advisory Board (SAB) – project selection committee for dementia research funding in Belgium (up to 5 million EUR/year) |
| 2025 | Member of the Advisory Board for the implementation of the <i>Brain Health Services for the secondary prevention of dementia in cognitively unimpaired individuals (dBHS)</i> , Memory Center of Geneva University Hospitals, Geneva, Switzerland. |
| 2025 | Co-organizer of the World Head Injury Awareness Day 2025 (WHIAD 2025), Geneva, Suisse. |
| 2025 | Invited expert for the selection committee of the tenure-eligible lecturer position in Neuropsychology at the University of Barcelona, as part of the Serra-Hünter 2024 program. |
| 2024 | Member of the Scientific Committee of the 2024 Neuropsychological French-speaking Days (Journées romandes de neuropsychologie), Geneva, Suisse |
| 2024 | Co-organizer of the World Head Injury Awareness Day 2024, Geneva, Suisse |
| 2023 | Publication of the Swiss Federal Office of Public Health recommendations regarding the diagnostic and treatment of the post-COVID-19 condition for primary care physicians |
| 2022-2023 | Member of the Federal Consortium mandated by Federal Office of Public Health for the development of FMH Post-COVID-19 condition guidelines, CH |
| Since 2020 | Information to health care professionals about the results of research on post-COVID syndrome to guide clinical assessments and rehabilitation |
| 2018-2023 | Member of the Scientific Committee (Humanities and Social Sciences Division), France Parkinson non-Profit Organization |
| 2020 | Member of the scientific council for the High Council for Evaluation of Research and Higher Education (Hcéres), France |
| 2015-2019 | <p>Organization of the Annual Continuing Education Conference of the Swiss Association of Neuropsychologists (about 80-100 participants each year)</p> <ul style="list-style-type: none"> ▪ 2019 topic: « <i>Neuropsychology and neuro-immunology</i> » ▪ 2018 topic: « <i>Memory systems throughout the lifespan</i> » ▪ 2017 topic: « <i>Contribution and limits of neuroimaging in clinical neuropsychology: from diagnosis to rehabilitation</i> » ▪ 2016 topic: « <i>Clinical neuropsychology of emotion</i> » |

- 2015-2019** Member of the Continuing Education Committee, Swiss Association of Neuropsychologists (ASNP)
- 2016-2017** Member of the Board, Swiss Association of Neuropsychologists (ASNP)
- 2013** Member of the scientific committee, European Clinical Neurophysiology Society
- 2012** Member of the Section of Neuropsychology of the French group of Neuromodulation by implanted material ("Club français de Neuromodulation par Matériel Implanté")
- 2012** Member of the scientific and organizing Committee of the "15th European Congress on Clinical Neurophysiology", Brno, Czech Republic
- 2012** Organization - together with Profs. Grandjean and Vuilleumier, and Dr Saj - of the international congress "What does human intracerebral recording tell us about emotions?" held in Geneva on Sept. 19-21st, 2012.
- 2002-2009** Participation in the creation of the Network of Clinical Neuropsychologists of Brittany, France
- 2002-2006** Vice President of the Association of Neuropsychology Students of Caen, Fr

Editing and reviewing

Editor

- Since 2024** Invited editor *Frontiers in Psychiatry*
- Since 2020** Associate editor *Revue de Neuropsychologie*
- 2023-2024** Associate editor *Cortex*
- 2014** Guest Editor of a special issue published in *Cortex* entitled "What does human intracerebral recording tell us about emotions?"

Ad hoc journal reviewer (selection)

Publons profile at: <https://publons.com/author/1512009/julie-peron#profile>

- About 150 journals (select. Brain - Brain and Cognition - Brain Topography - Clinical Physiology and Functional Imaging - Computer in Biology and Medicine - Emotion Review European Journal of Neurology – Imaging Neuroscience - Movement Disorders – Nature Communications - Neuropsychologia - Neuropsychology - Parkinsonism and Related Disorders – Scientific reports - Social and Affective Neuroscience - Social Neuroscience – The cerebellum)

Grant reviewer (alphabet. order)

- France Alzheimer non-profit organization
- Aquitaine Region Council (France)
- Auckland Medical Research Foundation Project Grant (New Zealand)
- Belgian National Agency for Research

- France Parkinson non-profit organization
- French National Agency for Research
- Neurological Foundation of New Zealand
- Parkinson's UK non-profit organization
- Translational and Clinical Research Committee of the University Hospital of Rennes (France)
- UK Research and Innovation – Future Leaders Fellowships (declined)

Other: Abstract Conference reviewer

- InterSpeech
- International Society for Research on Emotion (ISRE)

Education and communication for the lay community
