

## Seminars 2024-2025

Date	Modality	Speaker	Title	Host
<b>16.june.2025</b>	On site At 11h30 !	Dr. Claudia Peñaloza University of Barcelona	The interplay between language and memory systems supporting verbal learning in aphasia: Current evidence and clinical implications	Logan Bars
<b>12.may.2025</b>	On site + Online	Dr. Lucie Attout University of Geneva	Serial order in working memory: Function and nature of this coding	Mónica Lancheros + Julie Franco
<b>28.apr.2025</b>	On site + Online	Dr. Rob Zwitserlood Utrecht University	Effectiveness of metalinguistic grammatical therapy with 'MetaTaal' and serious game 'Bouke Bouwt'	Emily Stanford
<b>07.apr.2025</b>	On site	Prof. Sophie Schwarz University of Geneva	Emotion and memory reprocessing in sleep and dreams	Andriana Sabov
<b>24.mar.2025</b>	On site + Online	Dr. Kinga Igloi University of Geneva	Interactions between physical exercise, different forms of long-term memory, and genetic risk for Alzheimer's disease	Logan Bars
<b>10.mar.2025</b>	Online <u>At 15h00 !</u>	Prof. Rutvik Desai University of South Carolina	The role of anterior temporal lobe in lexicosemantic processing	Julie Franco

<b>17.feb.2025</b>	On site + Online	Prof. Rasha Abdel Rahman University of Humboldt	The many facets of meaning processing during language production	Marie Couvreu
<b>03.feb.2025</b>	Online	Prof. Beth Jefferies University of York	The neural basis of flexible semantic cognition	Marie Couvreu
<b>20.jan.2025</b>	Online	Prof. Bernd Kröger University of Aachen	Neurobiologically plausible modeling of speech production for improving our understanding of normal and disordered speech	Mónica Lancheros
<b>13.jan.2025</b>	On site <b><u>At 13h30!</u></b>	Dr. Tanja Atanasova University of Dundee	Individual intrinsic brain rhythms and speech comprehension differences	Mónica Lancheros
<b>02.dec.2024</b>	On site	Dr. Michael De Pretto University of Geneva	ERP signals during speech articulation: does auditory feedback mask other ongoing cognitive-motor processes?	Mónica Lancheros + Julie Franco
<b>18.nov.2024</b>	Online <b><u>At 15h00 !</u></b>	Dr. Ioanna Anastasopoulou Macquarie University	Neuroimaging of speech motor control in typical developing populations and in children with Childhood Apraxia of Speech – the MASK system	Mónica Lancheros
<b>04.nov.2024</b>	On site	Andriana Sabov University of Geneva	The Role of Semantic Knowledge and Reading Experience in Age- Related Changes in Associative Memory	Mónica Lancheros + Julie Franco
<b>21.oct.2024</b>	On-site	Prof. Luís Jesus University of Aveiro	Just a Whisper: Vowel Production in Two Speech Modes	Marion Bourqui
<b>30.sept.2024</b>	On-site/Online	Dr. Andrea Révész University College London	Using eye-tracking as a tool to develop second language knowledge	Agathe Cambon
