

Principal research themes of the
Institute F.-A. Forel;
an overview 1980-2010

Janusz Dominik

Papers (ISI science citation index)

Main research direction

(Limno)geology

- sedimentology
- paleoclimatology
- geology
- geomorphology

Other (methods)

- chemistry
- radiotracers
- nanoparticles
- natural colloids

Pollution science

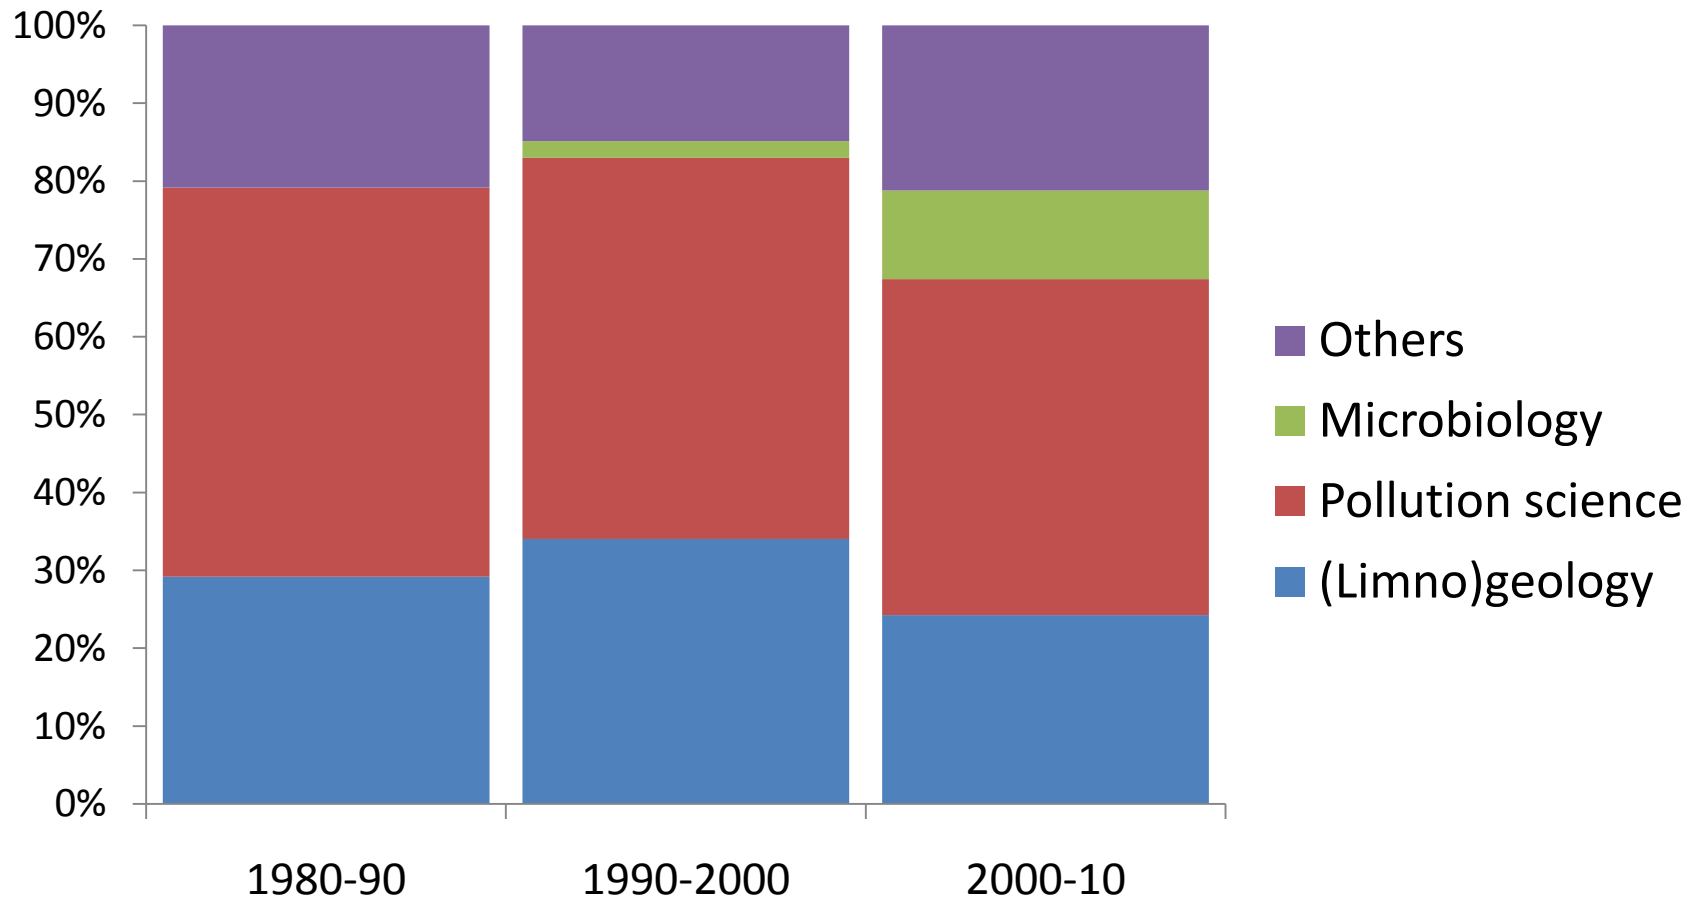

- metal pollution
- metal biogeochemistry
- env. assessment
- org. pollutant
- eutrophication
- ecotoxicology

Microbiology

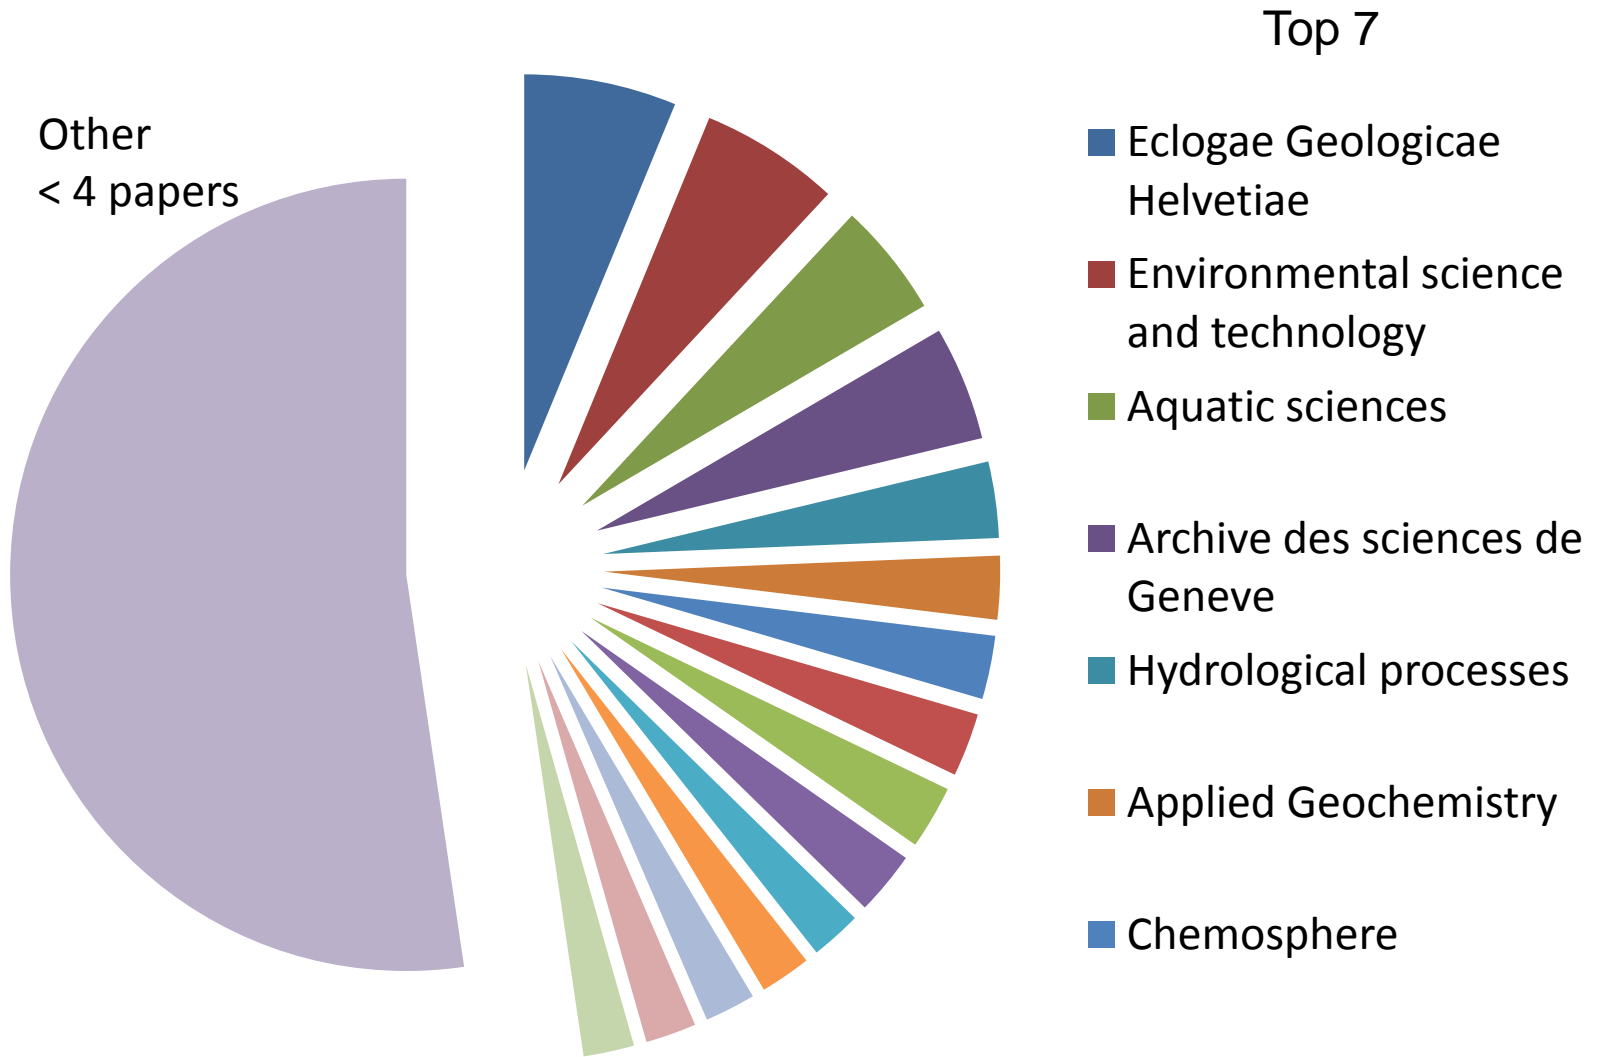

- env. bacteriology
- molecular biology
