Management of Clinical Trials
Good Clinical Practice Implementation and Quality Processes

September 2022 – May 2023

DAS
Diploma of Advanced Studies
Diplôme de formation continue

Centre de Recherche Clinique
UNIVERSITÉ DE GENÈVE
Programme Directors

- **Prof. Jules Desmeules**, Head of the Division of Clinical Pharmacology and Toxicology, University Hospitals of Geneva, Faculty of Medicine, University of Geneva
- **Prof. François Curtin**, Medical Director Personalised Health Programmes, Swiss Federal Institute of Technology Zürich & Lecturer at University Hospitals of Geneva, University of Geneva

Coordinators

- **Prof. François Curtin**, Medical Director Personalised Health Programmes, Swiss Federal Institute of Technology Zürich & Lecturer at University Hospitals of Geneva, University of Geneva
- **Dr Catherine Deloche**, Chief Operating Officer, Solid Drug Development, Geneva
- **Dr Françoise Lascombes**, External Consultant
- **Ms Camille Arni**, Administrative Assistant of the DAS-MAS, Faculty of Medicine, University of Geneva
An essential step for transitioning your career to clinical research

In the past two decades, the number of Clinical Trials conducted in Switzerland and worldwide has virtually exploded. This tremendous increase went hand in hand with the development of codes, guidelines and regulations aimed at protecting human research subjects. Standardization and strengthening of clinical research regulations have led to the development of a rapidly growing economic sector in which Clinical Research Associates, Clinical Research Scientists, Data Managers, Clinical Research Coordinators, Clinical Trial Managers, Clinical Research Nurses and Investigators are key players.

The Diploma of Advanced Studies (DAS) in Management of Clinical Trials – Good Clinical Practice Implementation and Quality Processes provides a theoretical and practical understanding of how Good Clinical Practice (GCP) principles are shaping each step of a Clinical Trial, including study design, trial management and conduct.
Steering Committee

- **Prof. Gerrit Borchard**, Head of Biopharmaceutics, Section of Pharmaceutical Sciences, Faculty of Science, University of Geneva
- **Prof. Cem Gabay**, Dean of the Faculty of Medicine, University of Geneva
- **Prof. Bernard Hirschel**, President, Cantonal Commission on Human Research Ethics, Canton of Geneva
- **Prof. Samia Hurst**, Director, Institute of Ethics, History and Humanities (iEH2), Faculty of Medicine, University of Geneva
- **Prof. Angèle Gayet-Ageron**, Head of the Methodological Support Unit, Clinical Research Centre (CRC), University Hospitals of Geneva, Faculty of Medicine, University of Geneva
- **Prof. Arnaud Perrier**, Medical Director, University Hospitals of Geneva
- **Prof. Jérôme Pugin**, Vice-Dean of the Faculty of Medicine and President of the Clinical Research Center (CRC), University Hospitals of Geneva, Faculty of Medicine, University of Geneva
Scientific Committee

- **Dr Gabriele Ackermann**, Chief Scientific Officer ad interim, Therapeutic Area Head Cardiovascular, Renal & Metabolism Therapeutic Area Head Respiratory, Novartis Pharma Switzerland
- **Dr Emilie Alirol**, Medicines for Malaria Venture, Associate Director, Access and Product Management
- **Dr Enrica Alteri**, Pharmaceutical consultant, former Head of Human Medicine R&D Support Division, EMA
- **Dr Vanya Beltrami**, CEO and founder at Beltrami Consulting, Geneva
- **Dr Jocelyne Chabert**, Clinical Research Associate, Clinical Research Centre (CRC), University Hospitals of Geneva, Faculty of Medicine, University of Geneva
- **Prof. Francois Curtin**, Medical Director Personalised Health Programmes, Swiss Federal Institute of Technology in Zürich & Lecturer at Hospitals of Geneva (UNIGE)
- **Prof. Youssef Daali**, Head of the laboratory of the Division of Clinical Pharmacology and Toxicology, University Hospitals of Geneva, Faculty of Medicine, University of Geneva
- **Dr Patricia Delaite**, Chief Medical Officer, Nouscom, Basel
- **Dr Catherine Deloche**, Chief Operating Officer, Solid Drug Development, Geneva
- **Prof. Philippe Ducor**, Faculty of Law, University of Geneva
- **Prof. Marc Froissart**, Medical Director of the Clinical Research Centre (CRC), CHUV-UNIL, Lausanne
- **Prof. Angèle Gayet-Ageron**, Head of the Methodological Support Unit, Clinical Research Centre (CRC), University Hospitals of Geneva, Faculty of Medicine, University of Geneva
- **Dr Angela Huttner**, Head of Clinical Investigation Unit (CRC), University Hospitals of Geneva, Faculty of Medicine, University of Geneva
- **Dr Françoise Lascombes**, External Consultant
- **Prof. Hervé Porchet**, Pharmaceutical consultant
- **Dr Victoria Rollason**, Division of Clinical Pharmacology and Toxicology, University Hospitals of Geneva and Faculty of Medicine, University of Geneva
Target Audience
Medical doctors, biologists, pharmacists, veterinarians, nurses, biochemists and other professionals involved, or wishing to gain skills and knowledge, in the field of clinical research.

Topics
- Methodology of clinical trials, data management and analysis.
- Ethical principles of clinical research, regulations applicable to clinical research in Switzerland, Europe and United States.
- Project management and coordination in clinical research.
- Quality systems in clinical research.
- Safety aspects of drug development, pharmaco-vigilance and pharmaco-epidemiology.
- Drug development and marketing authorization process.
- Medical Devices development.

Skills and Competencies
- Understand and use in a relevant context the different Clinical Trial designs and methodologies.
- Be familiar with drug development and marketing authorization processes.
- Gain knowledge of GCP and of clinical research regulations in Switzerland, Europe and the United States.
- Become skilled at developing Case Report Form (CRF).
- Coordinate the development of clinical trial protocols.
- Master effective project planning and management.
- Know how to manage applications for Ethics Committee (EC) and Regulatory Authority (RA).
- Understand and implement Quality Systems used in Clinical Trials.
- Understand the issues related to research subject protection.
Programme Structure

9 modules over one year (average 24 hours of teaching per module)
8h00-12h00/13h00-17h00 | Number of ECTS credits: 33 | Each module
is subjected to an evaluation in order to be accredited | Modules 2 to 12
may be attended individually.

Learning Methods

Lectures, interactive seminars, workshops, vocational training. Teaching
is in English or in French.

Dissertation

Students may choose between:

- A vocational training in a pharmaceutical company, a Clinical
  Research Organization (CRO) or a Clinical Trial Unit in a University
  Hospital (3-4 months) followed by a report.

- The development of a Clinical Trial protocol or a literature review
  and dissertation.

Diploma Awarded

Participants who successfully complete the programme will be
awarded the Diploma of Advanced Studies (DAS) in Management of
Clinical Trials – Good Clinical Practice Implementation and Quality
Processes / Diplôme de formation continue (DAS) en Gestion des
essais cliniques – Mise en application des bonnes pratiques cliniques et
processus qualité delivered by the University of Geneva. It equates to 33
ECTS (European Credit Transfer and Accumulation System) credits.
Module 2 | Principles and Methods of Clinical Research
26, 27, 28 September 2022
Prof. Angèle Gayet-Ageron, Prof. François Curtin
- Development of research questions and choice of endpoints
- Study designs
- Statistical methods used in clinical research
- Principles of Randomized Controlled Trials (RCT)
- Critical review of publications
- Development of study protocols
- Choice of endpoints
- Sample size calculation
- Interim analysis planning

Module 3 | Ethical and Legal Aspects
17, 18, 19 October 2022
Prof. Samia Hurst, Prof. Philippe Ducor, Dr Brigitte Happ
- Clinical research ethics
- Informed consent process
- Data protection and confidentiality
- Purpose and function of research Ethics Committees (EC)
- Assessing risks and benefits to research participants
- Vulnerable populations
- Good clinical practices
- Legal framework applicable in Switzerland, Europe and the United States for drugs, medical device and non-interventional trials
- Clinical Trial Agreements (CTA) and authorship issues
- Ethical issues in biobanks
Module 4A | Preclinical Pharmacology, Toxicology and Clinical Pharmacology
14 November 2022
Prof. Gerrit Borchard, Prof. Youssef Daali, Dr Catherine Deloche, Prof. Marie Besson
- Pharmacodynamics
- Pharmacokinetics
- Toxicology
- Drug metabolism
- Investigational Medicinal Product Dossier (IMPD) and Investigator Brochure (IB)

Module 5 | Safety Management in Drug Development
28, 29 November 2022
Dr Victoria Rollason, Prof. François Curtin, Prof. Jules Desmeules
- Risk management and safety monitoring during drug development
- Safety assessment, documentation and reporting during clinical trials
- Pre-and post-marketing pharmacovigilance
- Role of Data and Safety Monitoring Boards (DSMB)
Module 7 | Clinical Trials Set-up and Conduct – Part 1
16, 17, 18 January 2023
Dr Shelly Bustion, Dr Sandrine Charvat
- Scientific, strategic and safety considerations in clinical trial design
- Budget development and resource planning
- Investigator sites selection
- Role of CROs and external providers
- Clinical trial documents
- Submission to Swiss Ethics Committee (EC) and Swiss Regulatory Authorities (RA)

Module 8 | Clinical Trials Set-up and Conduct – Part 2
13, 14, 15 February 2023
Dr Françoise Lascombes, Ms Virginie Lemeaux
- Project management applied to clinical trials
- Recruitment and retention of study subjects
- Management of randomization and blinding systems
- Data collection and data management
- Management of investigational medicinal product
- Documents and records
- Monitoring of clinical studies
- Root-cause analysis
Module 10 | Clinical Trials Close-out and Reporting
20 March 2023
Dr Catherine Deloche, Dr Françoise Lascombes
- Clinical trial close-out activities
- Data cleaning and database lock
- Statistical Analysis Plan and result reporting (SAP)
- Medical writing and clinical study report
- Safety reconciliation and MedDRA coding

Module 11 | Medical Devices
21, 22 March 2023
Dr Mariagrazia Di Marco, Me Gabriel Avigdor
- Medical devices (MD) and new EU regulations (MDR, IVDR)
- Qualification and classification
- Clinical investigation and clinical trial application to authorities
- Market access strategy
- Conformity assessment and CE marking
- Materiovigilance
- Digital health and medical software
- Combination products

Module 12 | Audits and Inspections
9, 10, 11 May 2023
Dr Isabelle Mercier, Dr Isabelle Semac
- Quality management systems
- Audit
- Purpose and conduct of regulatory inspections
- Site preparation to inspections
General Information

Admission Criteria

- Title of physician
- Or Master’s or Bachelor’s degree in Life Science or title deemed equivalent
- Or Bachelor’s degree from a Swiss University of Applied Sciences plus a minimum of 1 year professional experience in the field of the DAS
- Good understanding of both French (knowledge equivalent to B2 Level) and English (knowledge equivalent to the Cambridge First Certificate)

The candidates who follow the programme during their working time must provide written authorization from their employer.

Application and Deadline

Online application may be submitted via the course website at: www.unige.ch/formcont/cours/clinical-trials

- Candidates should send copies of relevant university degrees, a Curriculum Vitae, a covering letter, two reference letters and a written authorization from their employer by July 29, 2022 to the DAS secretariat (DAS.clinicaltrials@hcuge.ch). Candidates should mention in their cover letter if they want to realize a vocational training at the end of the DAS.
- For individual modules, application should be sent at least one month prior to the beginning of the selected module (2 to 12). Priority will be given to candidates applying for the Diploma.
- The DAS is entirely paperless and students are encouraged to bring their laptop during classes.
Important Note
Candidates are warned that a significant amount of self-study is required to complete the DAS, and that they are expected to go through preparatory work before each module. Students should thus allow sufficient time to study at home, in addition to attending the classroom lectures.

Tuition Fee
- CHF 9,000.– for the Diploma
- 1-day-module: CHF 1,000.–
- 2-day-module: CHF 1,400.–
- 3-day-module: CHF 1,800.–

Accreditation
The course programme is accredited by:
- Swissethics
- Swiss Association of Pharmaceutical Professionals (SwAPP)
- Swiss Society of Clinical Pharmacology and Toxicology (SGKPT-SSPTC)
- Swiss Institute for Postgraduate and Continuous Medical Education (SWIF-ISFM)

Course Location
- Fondation Louis Jeantet (all modules)
  77 route de Florissant – 1208 Genève
  Bus 21 and 8 – Genève-Eaux-Vives-Gare, or Veyrier-Douane, stop Aubert
