The Faculty of Translation and Interpreting (FTI) is one of the most experienced and renowned centres for translation and interpreting education and research in the world. **ReMeTIS II: Specific Research and Scientific Communication Skills** is the second part of its **doctoral programme**, which consists of two separate courses. ReMeTIS II will provide you with state-of-the-art scientific skills with a focus on corpus design and quantitative data analysis.

It includes the following modules:

- 1. Corpus Construction and Analysis for Translation and Interpreting Studies (TIS)**
- 2. Quantitative Data Analysis**
- 3. Posters: Presenting Research Questions**
- 4. Career and Publication Strategies**

You will have access to reading materials, individual feedback, discussion threads and plenary lectures, and will be able to organise your work according to your individual schedules via a one-of-a-kind, interactive platform.
