

## Conditions of use

This document establishes the conditions for using and sharing content on the **Geneva Youth Call (GYC)** online platform.

The "*Contribute*" tab allows you to share content as **contributors** on the platform as a **Problem Witness** or **Problem Solver**.

Contributors can only share content by filling out the forms available on the platform. When submitting a contribution form, the contributor must accept the present terms and conditions, the use of its data and must certify that its content complies with the values advocated by the GYC. The contributor has to tick these three boxes to submit a contribution form.

### Verification of the Contribution by GYC

The GYC requires that any proposal respects its values and the [Code of ethics and professional conduct for the Geneva institutions of higher education](#) before and after its publication on the platform. Each proposal is verified and the GYC reserves the right not to accept a contribution.

A contribution previously published on the platform can be removed if it turns out that the content does not respect these conditions.

### Patenting a contribution

When a contributor shares content on the platform, it is available for anyone or any use, thus not protected by a patent. It is the contributors' responsibility to take the necessary steps to protect their content. Contributors agree with this document that their content shall be freely accessible, used, and searchable at all times.

### Contributions and Social media platforms

Contributors agree by submitting their content that the Geneva Youth Call can share it on its social media platforms (Instagram, Facebook, Twitter, and LinkedIn). Under no circumstances will the contributors' data appear.

## Sharing contact addresses with third parties

The GYC offers contributors the possibility to be contacted by third parties. Contributors shall express explicit consent to provide their email address to third parties. A contributor's contact address will only be shared if the contributor's explicit consent, through the contribution form, has been obtained.

Furthermore, anyone wishing to contact a contributor (an applicant) must make a contact request by mail to the GYC team. The GYC team analyzes each request to avoid any abuse. Besides, both the applicant and the contributor must allow that their contact address can be exchanged. In this way, the GYC shall ensure that no abuse is perpetrated. If not, the GYC will not communicate any contact address.
