

How to create a link for your application with Google Drive

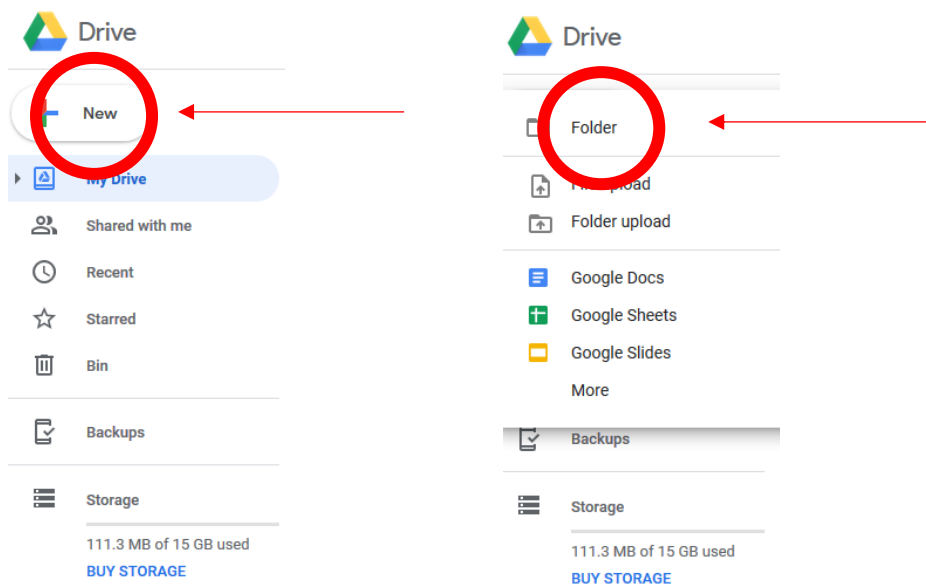

The easiest way is to first create a gmail account or a dropbox account.

Creating a link on Google Drive

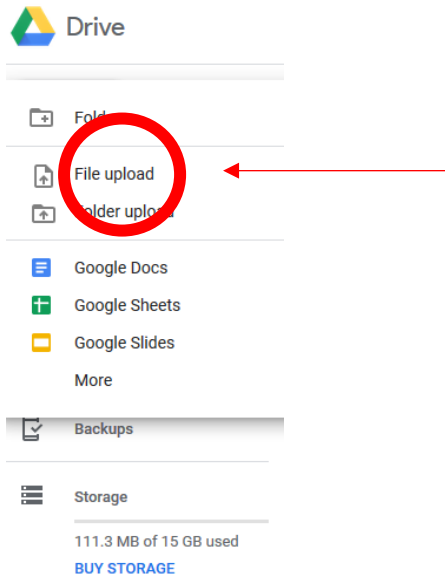

- 1) Log in to your google account, then click on « Drive » in the top right menu.

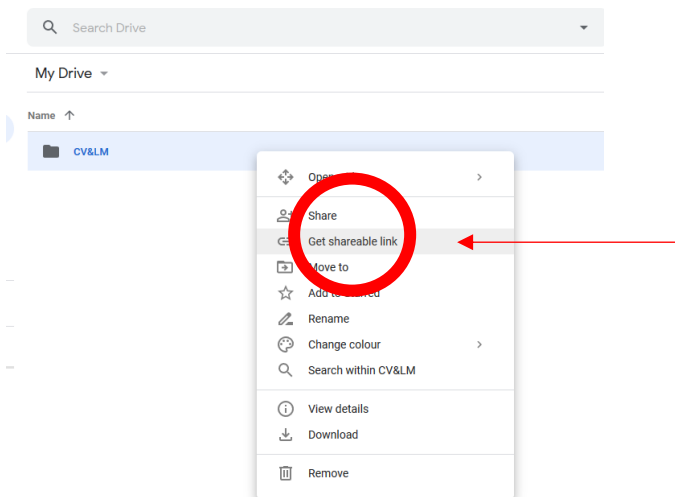

- 2) You are now on your drive. Next step is to click on « New ». Then create a folder that you can name 'GSS Application'.

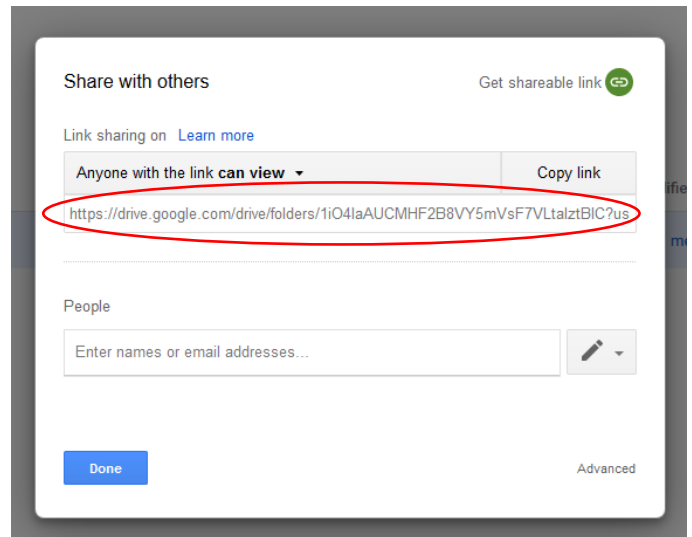

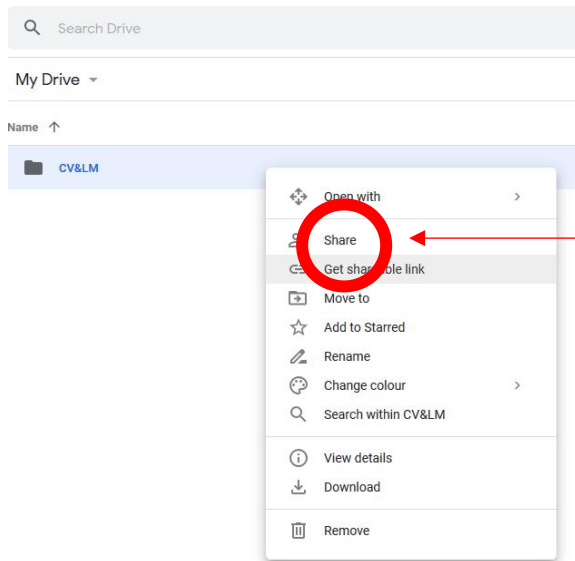

- 3) Upload your files by clicking again on « New » then «File Upload ». Then add your CV, your Motivation Letter and your Recommendation Letter. Finally, drag and drop all the files in the Folder that you have created before.

- 4) In order to access the link that you will need for your application, right click on the folder and click on « Get Shareable Link »

5) Then right click again and click on share. Your link will appear.

6) Copy the link, and paste it in your application
