Impact and Treatment Effect Estimation

# POLICY EVALUATION

## Impact and Treatment Effect Estimation

- A comprehensive program covering modern state-of-the-art techniques to understand the effect of policy interventions on relevant outcomes for both individuals and societies
- An internationally renowned faculty with academics from top European Universities and practitioners from or for Governmental and International Organisations
- Modern teaching style combining theory classes and hands-on applications using relevant examples and real data
- Our collaboration with governmental and international organizations and the mixing of academics and practitioners on both sides (i.e. on lecturers and audience) creates the optimal environment for intellectual exchange and networking for you
