Research Center for Statistics

Research Seminars – 2015-2016

- | | |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| September 18, 2015 | Maria Dolores Martinez Miranda - University of Granada and Cass Business School, London
<i>Do-validating local linear hazards</i> |
| October 2, 2015 | Thomas Kneib - Georg August-Universität Göttingen
<i>Bayesian Structured Additive Distributional Regression</i> |
| October 16, 2015 | Davide La Vecchia - GSEM University of Geneva
<i>Higher-order asymptotics for frequency domain M-estimators</i> |
| October 23, 2015 | Victor Panaretos - EPFL
<i>Amplitude and Phase Variation of Point Processes</i> |
| October 30, 2015 | Guillaume Dehaene - Neurosciences, UNIGE
<i>Expectation Propagation is exact in the large data limit</i> |
| November 13, 2015 | Giulia Cereda - Université de Lausanne
<i>Non parametric Bayesian approach to LR Assessment in case of rare type match</i> |
| November 27, 2015 | Heather Battey - Imperial College and Princeton University
<i>Distributed estimation and hypothesis testing with statistical guarantees</i> |
| December 4, 2015 | Daniel Chen - Institute for Advanced Studies, Toulouse School of Economics and Labor Worklife Program at Harvard Law School
<i>The Deterrent Effect of the Death Penalty? Evidence from British Commutations During World War I</i> |
| February 26, 2016 | Fabio Trojani - University of Geneva
<i>Arbitrage Free Dispersion</i> |
| March 4, 2016 | Po-Ling Loh - Wharton School, University of Pennsylvania
<i>Joint estimation of location and scale for robust high-dimensional linear regression</i> |
| March 11, 2016 | Marc-Olivier Boldi - GSEM University of Geneva
<i>Statistical consultancy at the Research Center for Statistics: achievements and opportunities</i> |

**UNIVERSITÉ
DE GENÈVE**

**GENEVA SCHOOL OF ECONOMICS
AND MANAGEMENT**
Research Center for Statistics

- March 18, 2016 Marco Avella Medina (Thesis Defense) - University of Geneva
Robust penalized M-estimators for generalized linear and additive models
- April 8, 2016 Bas Werker - Tilburg University
Semiparametrically optimal hybrid rank tests for Unit Roots
- April 15, 2016 Richard Morey - Cardiff University
The fallacy of placing confidence in confidence intervals
- April 22, 2016 Francesca Rossi - University of Southampton
Indirect inference in spatial autoregression (with Maria Kyriacou and Peter C. B. Phillips)
- April 29, 2016 Marc Hallin - Université Libre de Bruxelles
Monge-Kantorovich Ranks and Signs
- May 6, 2016 Sami Souli - University of Bristol
Dual Regression
- May 13, 2016 Michael Sorensen - University of Copenhagen
Bridge Simulation and Estimation for Multivariate Stochastic Differential Equations
- May 20, 2016 Benjamin Scheibehenne - University of Geneva
Bayesian Statistics as an Alternative to Null-Hypothesis Significance Testing
- May 27, 2016 Pietro Biroli - University of Zurich, Joint seminar Economics-Statistics
Health and Skill Formation in Early Childhood
