Master's Programme

STATISTICS

The Master in Statistics focuses on data analysis, methodological problem-solving in a range of disciplines, various types of statistics software or mathematical statistics. The programme is open not only to experts who wish to improve their theoretical skills in statistical research, but also to non-experts who wish to develop their data analysis skills in an area of specialisation acquired at the Bachelor level.

STUDY PROGRAMME

3 semesters (max. 5 semesters) | 90 ECTS credits

Core courses (42 credits)

- Analytics Consulting
- Applied Bayesian Statistics
- Linear Models for Dependent Data
- Machine Learning
- Modern Flexible Regression
- Multivariate Analysis
- The Statistical Analysis of Time Series

Elective courses (18 credits)

- Theoretical Statistics
- Advanced Topics in Machine Learning
- Data Driven Impact Evaluation
- Experimental Design: Theory and Practice
- Financial Econometrics
- Fundamental and Advanced Sampling Techniques
- Institutional Project
- Models and Empirical Methods for Asset Pricing
- Research Seminar in Statistics
- Stochastic Processes in Finance
- Advanced Econometrics
- Crowdsourcing and AI

+ 7 possible courses outside the faculty

Master Thesis (30 credits)

ACADEMIC CALENDAR
