

SNIS Incubator Workshop

Higher Education in Emergencies: The Potential of Open Educational Resources and Virtual Learning in Fragile Contexts

© 2014, InZone

This workshop proposes to examine the education-fragility nexus with particular focus on access to higher education, quality and relevance of higher education, and education management in emergencies.

Workshop themes:

1. **Access to higher education** in emergencies
2. **Quality of virtual learning** in fragility
3. **Mapping of higher education** domains
4. **On-the-ground/in-the-field management/implementation models**

24& 25 November 2014, 09.00 to 17.15

24.11. Closed Workshop
25.11. Open Workshop

- **Access to higher education** and techno-pedagogical support, including on-site and virtual tutoring and mentoring schemes;
- **Quality of virtual learning** in fragility, including learning platforms, curriculum design, training of trainers and tutors schemes, learning analytics to inform the research agendas to be developed for all sub-themes;
- **Mapping of higher education domains** of relevance to learners in fragility within the framework of 21st Century Skills;
- **On-the-ground/in-the-field management/implementation models** and interface to educational institutions working at distance.
