

IgBIG Program Spring Term 2014

- 04.03.14 Grafen, Alan (2014): "The formal darwinism project in outline", *Biology & Philosophy*, 29(2), 155-174.
- 11.03.14 Birch, Jonathan (2014): "Has Grafen formalized Darwin?", *Biology & Philosophy*, 29(2), 175-180.
- Ewens, Warren J. (2014): "Grafen, the Price equations, fitness maximization, optimisation and the fundamental theorem of natural selection", *Biology & Philosophy*, 29(2), 197-205.
- 18.03.14 Raphael Scholl on Mill and inference to the best explanation
- 25.03.14 Jantzen, Benjamin and Danks, David (2008): "Biological codes and topological causation", *Philosophy of Science*, 73(3), 259-277.
- 01.04.14 Andrea Loettgers on magnets, spins, and neurons and the dissemination of model templates across disciplines
- 08.04.14 Guillaume Schlaepfer on Sober and a priori biological knowledge
- 15.04.14 Lorenzo Casini on how to model mechanisms
- 22.04.14 no meeting (Easter)
- 29.04.14 no meeting
- 06.05.14 no meeting
- 13.05.14 Michael Baumgartner and Marcel Weber on the causal chain problem and biological experiments
- 20.05.14 Marie Kaiser and Beate Krickel on the metaphysics of mechanistic phenomena
