

Polarizations in Latin America

Is it a fact, or a mere recent perception that Latin American politics and social relations have become particularly polarized? How does polarization develop, both discursively and in perception as well as in practice, in lived experience?

During this workshop we will consider different modalities of polarization in Latin America, with a special – but not exclusive – focus on issues of gender and gender politics.

The Keynote Conference is open to the public

With the friendly financial support of :

UNIGE-UZH Joint Seed Funding

University of Geneva-University of Zurich

Swiss School of
Latin American Studies

FRIDAY, 14 JUNE 2019
