**DO YOU HAVE A PROJECT
INVOLVING DATA,
OPTIMIZATION, NUMERICAL
ANALYSIS OR MATHEMATICAL
PROGRAMMING?**

A team of 9 professors and
researchers at your service

OUR EXPERTISE?

Areas of applied
mathematics such as
optimization, statistics,
probability, numerical
analysis and scientific
computing

ABOUT US

The CAMAS (Consulting Platform in Applied Mathematics and Statistics) is a service of the Section of Mathematics at the University of Geneva. It provides expertise and guidance on mathematical, statistical, and computational challenges.

WHO CAN BENEFIT?

CAMAS is open to the entire UNIGE community, researchers, students, and staff. Whether your work is in life sciences, physics, chemistry, medicine, social sciences, or another field, CAMAS can support your projects. Its services also extend to industry partners.
