

**UNIVERSITÉ
DE GENÈVE**

FACULTÉ DE MÉDECINE

Department of Microbiology
and molecular Medicine

Assistant Professor Position

The Department of **Microbiology and Molecular Medicine** at the University of Geneva (www.unige.ch/medecine/mimo/en) is seeking to support outstanding candidates who are planning on submitting an application for a **SNSF Eccellenza Professorial Fellowship** (Deadline February 1, 2019) or a **PRIMA** grant (Deadline November 1, 2018)

The successful candidate will conduct an independent line of research in Geneva, Switzerland, to strengthen **fundamental research** in one of the existing disciplines of the department, i.e., **Bacteriology, Parasitology, or Virology**.

Eccellenza and PRIMA fellowships are aimed at researchers who have a doctorate or equivalent qualification pursuing an academic career. The grants cover the grantee's salary and project costs for a five-year period (www.snf.ch).

The successful candidate will hold the rank of a non-tenure track assistant professor at the Faculty of Medicine. Women scientists are encouraged to apply, as the University takes appropriate measures in favor of the underrepresented gender.

Please send your application including a one page project description and CV (two pages maximum) to Dylan.Walser@unige.ch no later than **September 30, 2018**.
