The workshop DARIAH-CH is an important event in the process of adhesion of Switzerland to the European consortium in Digital Humanities DARIAH, organized in the framework of the H2020 project DESIR. During this workshop, different sessions will offer a platform for Swiss and European protagonists to discuss the main topics related to the development of Digital Humanities.

The session on "Research practice in Digital Humanities" includes a Poster SLAM session in order to illustrate the current projects in the Swiss Academic Institutions. DARIAH-CH workshop is currently inviting 20 scholars or teams who want to present a poster which will be exhibited during the meeting and will be presented in a slam session on 30th November. The posters represent an opportunity to present new experiences in Digital Humanities (research project, teaching methods, etc.), works in progress or smaller research contributions in a concise and visible format.

POSTERS SUBMISSIONS
Authors are invited to submit to the Organisation Committee a poster abstract (max. one page long) containing the title, the name and affiliation of the authors and a brief summary of the subject treated. The standard poster size is of DIN A0 841mm wide x 1189mm high.

The submission deadline is 30th September 2018
