Alexander Grob, President of the Steering Committee

Kick-off-Meeting of the NRP Welfare and Coercion

Friday, 5 October 2018, 9:00 to 17:00 h
Fabrikhalle, Fabrikstrasse 12, Berne

Invitation to the researchers of the NRP 76

Presentation of Research Projects

Each project will be briefly presented in either English, German or French. Please consider the languages within the group of your project.

Please note that each presentations is strictly limited to 8 minutes. Therefore, we suggest to assign a single speaker.

We expect you to focus on the research questions, the design and the scientific and practical value of the expected project results. Please do not focus on the broader social context of your research question, since this will lead to too much repeating information across the 22 projects.

We encourage the use of the presentation technique Pecha Kucha. It is well-suited for short presentations and the technical facilities at the Fabrikhalle are excellent. Ultimately, the choice of technique is up to the research team.

10:20-
11:10
