PARCHEMINS STUDY :

LIVING WITHOUT PAPERS, WHAT IS THE EFFECT ON MY HEALTH?

We are looking for participants for a scientific research study that evaluates the impact of the Papyrus operation on the health and life conditions of undocumented migrants.

In partnership with :

CARITAS Genève

Collectif de soutien aux sans-papiers

Your help would be much appreciated :

We are looking for men and women 18 years or older who have lived in Geneva for a period of at least 3 years and do not hold a valid residence permit.

Modality of the study :

The participants are committed to respond to 8 interviews over the next 4 years. Each interview lasts approximately 1 hour and addresses the health and life conditions of the participants.

All information obtained will be coded to be **anonymous** and processed **confidentially**. It is possible to leave the study at any time.

Participation is on a voluntary basis and not remunerated. The participants will receive information regarding the health services available to them. This study will highlight the life conditions and needs of undocumented migrants in Geneva.

Main interlocutor :

Dr Yves Jackson, Service de médecine de premier recours, HUG,
rue Gabrielle-Perret-Gentil 6, 1211 Genève 14

☎ 022 372 96 56 ✉ yves.jackson@hcuge.ch
