Reference 2 :

Reference 3 :

Reference 4 :

MS technique selected & rationale for such a choice :

Sample preparation prior MS analysis :

Sample submission : All samples must have labels bearing, project code, requester name, and sample name (code names are desirable if chemical name is lengthy). Each sample series need to be submitted with a sample submission request form for project and must be left at the "Pavillon des Isotopes" reception.

Date:

Signature of Principal Investigator:

NOTE:

When mass spectral data subsequently used in publications, please acknowledge accordingly the MS core facility (MZ 2.0) from the faculty of Science, University of Geneva, Switzerland.
