The department of Earth Sciences (DESTE), at the University of Geneva is seeking **female applicants** to the Swiss National Science Foundation Professorial Grants (Starting/Consolidator) program 2023 (call opens November 2022), to hire a tenure-track Assistant Professor.

We are seeking candidates in **any field of the geosciences**. Particular attention will be given to candidates interested in research areas that do not overlap but take advantage of, or complement, existing expertise within DESTE (<https://www.unige.ch/sciences/terre/en/earth-sciences-department/>) and will foster innovative interdepartmental collaborations. To strengthen the application, the department **will support the successful applicant/s with an additional PhD student for the 5 years of the project**.

Please send your application, including two-page summary of the intended project and CV (2 pages maximum) to the director of department Prof. Luca Caricchi - [luca.caricchi@unige.ch](mailto:luca.caricchi@unige.ch) - no later than **October 31<sup>st</sup>, 2022**.

Please check your eligibility here :
