THE SOCIÉTÉ DE PHYSIQUE ET D'HISTOIRE NATURELLE DE GENÈVE
is pleased to announce the

International Marc-Auguste Pictet Prize 2023

on the History of Astronomy & Astrophysics

for a contribution in the field :

The Universe's history as unveiled through Observational Cosmology

The Prize rewards an outstanding contribution in History of Science (book or dissertation) in the specified field, unpublished or published after the end of 2018. The Prize is open to authors of all citizenship and country of residence. It is dedicated preferably to a scholar still in an early stage of his or her career.

The 2023 Prize is endowed with an amount of CHF 10'000.

The text must be written in English or French. It should include a summary of less than 2'000 words.

The work should be received before January 9th 2023, along with its summary, the author's curriculum vitae and a cover letter, preferably as electronic files deposited on the website:

<https://drive.switch.ch/index.php/s/hDrIzkJpk3VUwdx>

The applicants should send an email (subject "MAP 2023 Prize submission") to the European Astronomical Society (eas@unige.ch) - in charge of the reception process on behalf of the SPHN -, to confirm their submission (electronic or as printed material). The printed documents can be sent to :

M.-A. Pictet Prize 2023
SPHN, Muséum d'Histoire naturelle
Case postale 6434, CH-1211 Genève 6
Switzerland

The applications will be reviewed by an international panel of experts in the field of the 2023 Prize, acting under the responsibility of the SPHN. The Prize will be awarded in Geneva, early in 2023, if possible in the presence of the winner, invited by the SPHN to attend the ceremony.

The site <https://www.unige.ch/sphn/Prixetbourses> provides information about the history of the Prize. For more details, contact the Chair at Michel.Grenon@unige.ch.
