Technology/Invention Disclosure Form

The purpose of this Technology/Invention Disclosure Form is to record that a new technology/invention has been developed, and the circumstances under which this occurred. In the case of an invention, the Technology/Invention Disclosure Form provides the basis for determining patentability and for drafting a patent application. It is an important document. Please prepare it carefully.

Please be aware that any public disclosure (written or oral) of an invention prior to filing a patent application may jeopardize your chances of obtaining patent protection.

Please fill out the form, have it signed by all the people who have contributed to developing the technology and send the signed form to :

Unitec
Office of Technology Transfer
Uni Dufour
24, rue Général-Dufour
1211 Geneva 4

or contact Unitec on (022) 379 03 50 / unitec@unige.ch

1) Description of the technology/invention

(a) **Title**

(b) **Technical description of the technology/invention**

(c) **Possible industrial/commercial applications of the technology/invention**

(d) **Related scientific publications or patents**

2) Inventors

a) People involved in developing the technology

Please state the name of all the individuals (including those affiliated to other institutions) who have contributed to the technology and briefly describe what their individual contributions have been.

b) Inventors

Please state the name of all the individuals that you believe to be inventors (including those affiliated to other institutions), knowing that an inventor is an individual who has conceived an essential element of the invention either independently or jointly with other inventors. In case of doubt, a patent attorney will be consulted to determine inventorship.

3) Funding

Who has funded the research leading to this technology/invention ? Please state the name of all sponsors and grant numbers if available.

4) Possible third-party claims on the technology/invention

Could any third party raise claims towards the technology/invention ? For example,

a) *...have you received any of the materials used to develop the technology/invention from a third party, under an MTA?*

_____ NO

_____ YES (please specify)

b) ...have you developed the technology/invention as part of a collaboration with a third party?

_____NO

_____YES (please specify)

c) Other (please specify)

5) Publication

a) Previous disclosures

Has any aspect of this technology/invention been published, presented at a science meeting or otherwise disseminated (including for example on your website) ?

b) Planned publications

Are you planning to publish or otherwise disseminate any aspect of this technology/invention in the future ? – If yes, please specify and list dates.

6) Comments
