Errata: Iterative Methods and Preconditioning for Systems of linear equations, first edition

- page 197: Figure 4.47, on the left, the axis label should be ζ^2, not ζ.

- page 197: 3rd displayed equation in the proof, $\nu - 2$ should be replaced by ν_2 twice, i.e.

$$G\varphi_{\frac{m+1}{2}} = \left(1 - 2\omega s^2_{\frac{m+1}{2}}\right)^{\nu_1 + \nu_2} = (1 - \omega)^{\nu_1 + \nu_2},$$
